

## AGENDA

### MISSION STATEMENT

"Our team is dedicated to protecting, enhancing, and developing our rich water resources to the highest beneficial use for Calaveras County, while maintaining cost-conscious, reliable service, and our quality of life, through responsible management."

**Regular Meeting Date:**  
Wednesday, April 23, 2014  
9:00 a.m.

Calaveras County Water District  
120 Toma Court, (PO Box 846)  
San Andreas, California 95249

In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, please contact the Administration Office at 209-754-3028. Notification in advance of the meeting will enable CCWD to make reasonable arrangements to ensure accessibility to this meeting. Any documents that are made available to the Board before or at the meeting, not privileged or otherwise protected from disclosure, and related to agenda items, will be made available at CCWD for review by the public.

### ORDER OF BUSINESS

#### CALL TO ORDER / PLEDGE OF ALLEGIANCE

1. ROLL CALL

2. PUBLIC COMMENT

At this time, members of the public may address the Board on any non-agendized item. The public is encouraged to work through staff to place items on the agenda for Board consideration. No action can be taken on matters not listed on the agenda. Comments are limited to five minutes per person.

3. OLD BUSINESS

Nothing to report.

4. NEW BUSINESS

4a Commending Vince Bowers for his 31 Years of Service for CCWD  
(Stacey Lollar, HR Manager) **RES 2014-\_\_\_\_\_**

4a Designate District Voting Representative at ACWA Spring Conference  
(Mitchell Dion, General Manager)

---

#### BOARD OF DIRECTORS

**RESOLUTION NO. 2014-**

**A RESOLUTION OF THE BOARD OF DIRECTORS  
OF THE  
CALAVERAS COUNTY WATER DISTRICT**

**RECOGNIZING AND HONORING CCWD EMPLOYEE  
VINCENT (Vince) BOWERS**

**WHEREAS**, Vince Bowers has diligently served the Calaveras County Water District for 31 years from April 19, 1983 to April 30, 2014; and

**WHEREAS**, during his tenure, Vince Bowers held several positions including Meter Reader, Plant Operator, Mechanic, Leadman, Maintenance Foreman, Collections Supervisor, Construction/Inspection Senior Supervisor, and lastly Construction/Inspection Manager; and

**WHEREAS**, Vince was instrumental in developing and implementing the Collections System Preventative Maintenance Program; and

**WHEREAS**, Vince was responsible for developing the key components of the District's construction and development standards and specifications; and

**WHEREAS**, Vince oversaw numerous construction projects and was the "Go to" guy for the locations and operations of each detail of the District's utility systems; and

**WHEREAS**, Vince has worked with a strong sense of dedication and responsibility to his position, staff and the customers of the District.

**NOW, THEREFORE, BE IT RESOLVED**, that the Board of Directors of the CALAVERAS COUNTY WATER DISTRICT hereby commemorates Vincent Bowers' 31 years of service with the District.

**BE IT FURTHER RESOLVED**, that the Board of Directors and Staff of the District wish Vince all the best in his retirement activities.

**PASSED AND ADOPTED**, this 23<sup>rd</sup> day of April 2014 by the following vote:

**AYES:**

**NOES:**

**ABSTAIN:**

**ABSENT:**

CALAVEAS COUNTY WATER DISTRICT

# Agenda Item

DATE: April 23, 2014

TO: Board of Directors

FROM: Mitchell Dion, General Manager *(M)*

SUBJECT: Designate Representative for Vote on Bylaws at ACWA Conference

---

## RECOMMENDED ACTION:

Motion: \_\_\_\_\_ / \_\_\_\_\_ to designate a CCWD representative to vote on proposed amendments to the association's bylaws and to provide comment to designee for related initiative at the general session of Association of California Water Agencies (ACWA) Spring Conference in Monterey, on May 7, 2014.

## SUMMARY:

The Association of California Water Agencies members are scheduled to vote on proposed changes to its bylaws recommended by the ACWA Board of Directors. The bylaw changes are meant to address changes to standing committees (see attached memorandum).

To cast a vote at the general membership meeting, agency members must designate a voting representative. At the conference the agency's designee will pick up a proxy card on Wednesday, May 7<sup>th</sup>, between 9:00 a.m. and 12:30 p.m. and vote on the proposed changes to the bylaws. Directors can designate one of its members as a designee who will be attending the Spring Conference and casting a vote in behalf of CCWD.

**FINANCIAL CONSIDERATIONS:** None.

## MEMORANDUM

**TO:** ACWA Public Agency Members  
General Managers and Board Presidents

**CC:** ACWA Board of Directors

**FROM:** John A. Coleman, ACWA President  
Kathleen J. Tieg, ACWA Vice President

**DATE:** April 1, 2014

**SUBJECT:** General Session Membership Meeting at ACWA 2014 Spring Conference – May 7, 2014

There will be a General Session Membership Meeting of the ACWA membership at ACWA's 2014 Spring Conference in Monterey, California, on Wednesday, May 7. The purpose of the meeting is to conduct a vote by the membership on proposed amendments to the bylaws recommended by the ACWA Board of Directors at its meeting on March 28. The bylaw amendments represent the Board's actions to address needed changes related to standing committees in light of recent organizational changes. The proposed bylaw amendments are attached.

As reviewed and recommended by the ACWA Board of Directors and the Legal Affairs Committee, the changes in the draft amended bylaws include:

- Elimination of the Personnel and Benefits Committee, a standing committee with representation on the ACWA Board of Directors, since the benefit program functions reviewed by the committee have been fully transitioned to the management of ACWA-Joint Powers Insurance Authority (ACWA-JPIA) with the dissolution of ACWA-Health Benefits Authority (HBA) in July 2012.
- Establishment of the Business Development Committee, a standing committee with representation on the ACWA Board of Directors, to develop and recommend to the Board of Directors programs and activities to be provided or administered by the Association that generate non-dues revenues and provide a service or benefit to Association members.

The Board of Directors recommends adoption of these bylaw amendments through a vote of the membership. ACWA staff is available in advance of the meeting of the membership to answer any questions you may have. Daniel Hentschke, chair of the Legal Affairs Committee, will also provide a brief overview of these changes during the General Session Membership Meeting before the item is called for a vote.

### MEMBERSHIP VOTING PROCESS

ACWA will issue each member agency present one proxy card for voting purposes based on the designated voting representative identified by the member agency. The designated voting representative will be required to register and sign as the proxy holder to receive the proxy card. Proxy cards will only be available for pick-up on **Wednesday, May 7, between 9:00 a.m. and 12:30 p.m.** at the **General Session Proxy Desk** in the **De Anza Foyer** area of the **Portola Plaza Hotel**, outside of the **De Anza Ballroom** where the luncheon and General Session Membership Meeting will be held.

To expedite the sign-in process at the **General Session Proxy Desk**, please indicate your voting designee on the enclosed proxy form and return it by email ([donnap@acwa.com](mailto:donnap@acwa.com)) or fax (916-554-2350) at your earliest convenience. If there is a last minute change of delegate, please let us know before the meeting date by contacting ACWA's Executive Assistant/Clerk of the Board, Donna Pangborn, at 916-441-4545 or [donnap@acwa.com](mailto:donnap@acwa.com).

If you have any questions, do not hesitate to contact us by telephone or e-mail.

## PROPOSED BYLAW AMENDMENTS OF THE ASSOCIATION OF CALIFORNIA WATER AGENCIES

*(As amended by the Members on May 9, 2012 with changes  
recommended by the ACWA Board of Directors – March 28, 2014)*

### ARTICLE 7 – STANDING COMMITTEES

**Section 1. Qualification.** In order to serve on any ACWA standing committee, an individual must be an officer, employee, or member of the governing body of a member agency of the Association, or other representative duly designated by a member agency of the Association to represent that member at the time of the appointment. Where an individual ceases to meet these criteria during the term of the appointment, the individual may not serve during the remaining term of that appointment unless that individual can again meet the criteria for appointment and is appointed to complete the term.

**Section 2. Term of Office.** The term of office of standing committee members shall be two years commencing on January 1 of each even-numbered year. The term of office of standing committee chairs, who serve on the Board of Directors, shall be approximately two years and shall commence as soon after January 1 of the even-numbered year as they may be appointed by the president and ratified by the then-seated Board of Directors, and shall terminate on December 31 of the odd-numbered year approximately two years later or until their successors are appointed and ratified.

**Section 3. Meetings.** Meetings of standing committees may be called at such times and places designated by the respective chair thereof except where provided otherwise by these bylaws. Subject to the provisions of these bylaws and any actions that may be taken by the Board of Directors, the chairs of each standing committee may establish their own rules for the efficient operation of the committee they each chair. The chairs of each standing committee are authorized to create subcommittees and workgroups in order to complete the work of the committee.

**Section 4. Business Development Committee.** There shall be a Business Development Committee whose duty it is to develop and recommend to the Board of Directors programs and activities to be provided or administered by the Association that generate non-dues revenue and provide a service or benefit to Association members. The committee shall consist of at least one representative from each region and one representative from the other standing committees.

**Section 5. Communications Committee.** There shall be a Communications Committee whose duty it shall be to develop and make recommendations to the Board of Directors regarding a comprehensive internal and external communications program for the Association and to promote development of sound public information and education programs and practices among members of the Association. The committee shall consist of no more than 40 individuals. Of that number, at least one individual shall be from each region.

## PROPOSED BYLAW AMENDMENTS OF THE ASSOCIATION OF CALIFORNIA WATER AGENCIES

---

**Section 6. Energy Committee.** There shall be an Energy Committee whose duty it shall be to recommend policies and programs to the Board of Directors and to the State Legislative Committee and/or Federal Affairs Committee as appropriate. The committee shall consist of at least one representative from each region.

**Section 7. Federal Affairs Committee.** There shall be a Federal Affairs Committee whose duty it shall be to review all federal legislative proposals and regulatory proposals affecting members of the Association, after consulting with other appropriate committees, and to develop Association positions consistent with existing policy, where it has been established; recommend sponsorship of bills that will resolve problems or improve conditions for members of the Association; and assist in the establishment of the Association's federal legislative program. The committee shall consist of at least one and no more than five individuals from each region.

**Section 8. Finance Committee.** There shall be a Finance Committee whose duty it shall be to make recommendations to the Board of Directors regarding annual budgets, dues formula and schedules and other revenue-producing income, annual audit and selection of an auditor, and investment strategies. The committee shall consist of the president and vice president of the Association as ex officio members, the Finance Committee chair, one member of the region board from each of the Association's 10 regions (either chair or vice chair), and one additional representative from each region with experience in financial matters.

**Section 9. Groundwater Committee.** There shall be a Groundwater Committee whose duty it shall be to recommend policies and programs to the Board of Directors and to the State Legislative Committee and/or Federal Affairs Committee as appropriate. The committee shall consist of at least one representative from each region.

**Section 10. Legal Affairs Committee.** There shall be a Legal Affairs Committee whose duty it shall be to support the mission of the Association, and more particularly to deal with requests for assistance involving legal matters of significance to members of the Association, including but not limited to state and federal court litigation, water rights matters, selected regulatory and resources agency matters, proposed bylaw revisions, review of legislation as requested by the State Legislative Committee, etc. The committee shall consider matters and issues submitted to it in order to determine which ones are of major significance to the members of the Association and, assuming a finding of major significance, recommend to the Board of Directors the position(s) which the committee believes the Association should take with respect thereto. The committee shall be composed of between 35 and 45 attorneys, each of whom shall be, or act as, counsel for a member of the Association, representing diverse interests within the Association, including but not limited to, different geographical areas throughout the state, large and small agencies, agricultural and urban agencies, agencies created under the various enabling statutes, etc. Further, there shall be at least one representative from each region on the committee.

**Section 11. Local Government Committee.** There shall be a Local Government Committee whose duty it shall be to recommend policies to the State Legislative Committee, as appropriate, and Board of

## PROPOSED BYLAW AMENDMENTS OF THE ASSOCIATION OF CALIFORNIA WATER AGENCIES

---

Directors on matters affecting water agencies as a segment of local government in California. The committee shall consist of at least one and no more than three individuals from each region.

**Section 12. Membership Committee.** There shall be a Membership Committee whose duty it shall be to assist staff in developing membership recruitment and retention programs, make recommendations to the Board of Directors regarding membership policies, eligibility, and applications for membership and review and make recommendations to the Finance Committee regarding an equitable dues structure. The committee shall consist of at least one member from each region.

**Section 13. State Legislative Committee.** There shall be a State Legislative Committee whose duty it shall be to review all state legislative proposals affecting members of the Association and to establish Association positions, consistent with existing policy, where it has been established; sponsor bills that will resolve problems or improve conditions for members of the Association; and assist in the establishment of the Association's legislative program. The committee shall consist of individuals representing a variety of types of members and at least one and no more than four individuals from each region.

**Section 14. Water Management Committee.** There shall be a Water Management Committee whose duty it shall be to recommend policy and programs to the Board of Directors on any area of concern in water management. The committee shall consist of at least one and no more than four individuals from each region.

**Section 15. Water Quality Committee.** There shall be a Water Quality Committee whose duty it shall be to develop and recommend Association policy, positions, and programs to the Board of Directors, to promote cost-effective state and federal water quality regulations that protect the public health, to enable interested members of the Association to join together to develop and coordinate with other organizations, and to present unified comments regarding agricultural and domestic water quality regulations. The committee shall consist of at least one individual from each region.

Amended comprehensively December 1, 2010

Amended May 9, 2012

# Agenda Item

DATE: April 23, 2014  
TO: Board of Directors  
FROM: Mitchell S. Dion, General Manager   
SUBJECT: Wild and Scenic Rivers Act Designation on the Mokelumne River  
(SB 1199 – Hancock)

---

## RECOMMENDED ACTION:

The Board of Directors may take a position on pending legislation (favor, oppose or neutral) and provide direction for level of engagement to communicate the position to the sponsor of the legislation or modifications which may enhance the proposed legislation.

## SUMMARY:

Existing law, the California Wild and Scenic Rivers Act (Act), designates certain rivers and river segments as components of the state wild and scenic river system and generally prohibits the construction of new dams, reservoirs, diversions, and other impoundments, or water diversion facilities along the specified river segments. Designated rivers are classified as wild, scenic, or recreational depending upon the level of development along the river; however the rivers are commonly referred to as "wild and scenic".

SB 1199 (Hancock), as amended on April 3, 2014, would designate eight specified segments of the Mokelumne River as "wild and scenic" within three main areas:

"North Fork Mokelumne River from 0.25 miles downstream of Salt Springs Dam to the southern boundary of Section 12, T6N, R12E";

"North Fork Mokelumne River from 1,400 feet upstream of the South Fork Mokelumne River confluence"; and

"The main stem of the Mokelumne River from the confluence of the North and South Forks to the upper extent of Pardee Reservoir downstream of Highway 49, as the reservoir exists on January 1, 2015." (This could purport to designate a portion of the existing Pardee Reservoir as a protected river under the California

Wild and Scenic Rivers Act, which appears to conflict with other provisions of the Act.)

Not to be confused with the Federal Law, the State Act was established in 1972 with the expressed intent of preserving "certain rivers which possess extraordinary scenic, recreational, fishery, or wildlife values" "in their free-flowing state, together with their immediate environments, for the benefit and enjoyment of the people of the state." In enacting the law, the legislature declared "that such use of these rivers is the highest and most beneficial use and is a reasonable and beneficial use of water." When a river is classified as "wild and scenic" under the Act, other than temporary flood storage facilities, "no dam, reservoir, diversion, or other water impoundment facility may be constructed on any river and segment thereof designated..." The Act also provides that no water diversion facility may be constructed on the river and segment unless the Secretary of Resources determines that the diversion facility is needed to supply domestic water to residence of the county or counties through which the river and segment flows and that the facility will not adversely affect the free-flowing condition and natural character of the river and segment. The goal of designating a river under the Act is to prevent construction of a new dam or reservoir on a designated segment (particularly by out of county interests).

The National Wild and Scenic Rivers Act preserves designated river by classifying them as wild, scenic, or recreational; and prohibits construction of dams or other in-stream activities that would harm a designated river's free-flowing condition, water quality, or resource values. However, federal law also establishes a river corridor of approximately one-quarter mile along each side of a designated river and requires federal agencies to manage those lands. There are concerns that state designation would lead to federal designation. Currently, California has 14 state designated "wild and scenic" rivers, 5 of which are among the 23 rivers in California that have a national wild and scenic designation. Additional research would be needed to fully analyze the variations between State and Federal designation for potential impacts to Calaveras County Water District operations, plans, and interests.

There have been other proposals to designate similar segments of the river. Most recently was the 2010 attempt to designate it under the Federal Act. SB 1199's designation would extend to Pardee Reservoir "as it exists on January 1, 2015." This designation goes approximately two miles beyond the previous proposal in 2010. Currently, it cannot be determined what the water level of Pardee will be in January 2015, however it is likely not to be at full capacity which would be of concern to CCWD and future considerations.

The Foothill Conservancy has expressed the position that the author of SB 1199 introduced the legislation to protect the source and water quality of her constituents' water supply. CCWD shares a common interest. The UMRWA Watershed Assessment Report (Jan 2007), identified leaking septic systems and catastrophic wildfires as the two most significant potential water quality threats in the upper Mokelumne Watershed. The proposed designation would not have a significant impact upon either threat.

Advocates have also indicated that the local economy would benefit for the designation, if so, the designation could be beneficial to broader interests of the County and indirectly for CCWD ratepayers. Currently, CCWD does not have any additional facilities planned which would be impacted by the proposed legislation.

During 2010, EBMUD sought to protect the Mokelumne River through a wild and scenic designation to preserve future regional water supply options and promote local discussion. There may be advantages to participating in the discussions to shape legislative designations to preserve future water resource development and promote water quality. However, some compromise might be extracted during those discussions which would limit future water resource development (or require extensive additional work and uncertainty to obtain approval by the Secretary of Resources).

Calaveras County Board of Supervisors adopted a resolution on February 25, 2014, to deport state designation of the Mokelumne River as a wild and scenic river from Salt Springs Dam to the existing eastern, upstream boundary of Pardee Reservoir. On April 8, 2014, EBMUD opted not to take a position on this proposal and continue to engage with their regional (up-country) partners. Amador County Board of Supervisors has taken an opposed position and Amador County Water Agency has expressed a similar position.

#### **FINANCIAL CONSIDERATIONS:**

No significant financial impact is anticipated by the action taken relating to this item.

Map of proposed designations

AMENDED IN SENATE APRIL 3, 2014

SENATE BILL

No. 1199

---

Introduced by Senator Hancock

February 20, 2014

---

An act to amend Sections ~~5508 and 5511~~ *5093.54 and 5093.545* of the Public Resources Code, relating to ~~parks~~ *wild and scenic rivers*.

LEGISLATIVE COUNSEL'S DIGEST

SB 1199, as amended, Hancock. ~~Parks: regional park, park and open-space, and open-space districts; notice of hearing. Wild and scenic rivers: Mokelumne River.~~

*The California Wild and Scenic Rivers Act includes specified rivers and segments thereof within the California Wild and Scenic River system, which are subject to various protections under the act. Existing law requires the Natural Resources Agency to coordinate the activities of state agencies whose activities affect the rivers in the system, as specified, and to study and submit to the Governor and the Legislature reports on the suitability or nonsuitability of designated potential additions to the system.*

*This bill would include within the system specified segments of the Mokelumne River, and would designate those segments as wild, scenic, or recreational.*

~~Existing law authorizes a procedure for the creation of a regional park district, regional park and open-space district, and regional open-space district where certain requirements, including, but not limited to, the holding of an election, must be met. Before an election is held, existing law requires a specified county to hold hearings to determine the boundaries of the proposed district and to publish notice, as specified, of those hearings.~~

~~This bill would also require notice of those hearings to be posted online and to be publicly accessible on the county's Internet Web site, if the county has an Internet Web site, thereby imposing a state mandated local program.~~

~~The California Constitution requires the state to reimburse local agencies and school districts for certain costs mandated by the state. Statutory provisions establish procedures for making that reimbursement.~~

~~This bill would provide that, if the Commission on State Mandates determines that the bill contains costs mandated by the state, reimbursement for those costs shall be made pursuant to these statutory provisions.~~

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: ~~yes~~ no.

*The people of the State of California do enact as follows:*

1     SECTION 1. *The Legislature finds and declares both of the*  
2 *following:*

3     (a) *The Mokelumne River contains extraordinary scenic,*  
4 *recreational, historical, cultural, and water quality values of*  
5 *statewide significance that deserve to be preserved in their*  
6 *free-flowing state for the benefit and enjoyment of the people of*  
7 *the state.*

8     (b) *In designating the Mokelumne River as a component of the*  
9 *California Wild and Scenic River System, it is the intent of the*  
10 *Legislature that this act will accomplish the preservation of those*  
11 *values.*

12     SEC. 2. *Section 5093.54 of the Public Resources Code is*  
13 *amended to read:*

14     5093.54. *The following rivers and segments thereof are*  
15 *designated as components of the system:*

16     (a) *Klamath River. The main stem from 100 yards below Iron*  
17 *Gate Dam to the Pacific Ocean; the Scott River from the mouth*  
18 *of Shackelford Creek west of Fort Jones to the river mouth near*  
19 *Hamburg; the Salmon River from Cecilville Bridge to the river*  
20 *mouth near Somesbar; the North Fork of the Salmon River from*  
21 *the intersection of the river with the south boundary of the Marble*  
22 *Mountain Wilderness Area to the river mouth; Wooley Creek from*  
23 *the western boundary of the Marble Mountain Wilderness Area*  
24 *to its confluence with the Salmon River.*

1 (b) Trinity River. The main stem from 100 yards below Lewiston  
2 Dam to the river mouth at Weitchpec; the North Fork of the Trinity  
3 from the intersection of the river with the southern boundary of  
4 the Salmon-Trinity Primitive Area downstream to the river mouth  
5 at Helena; New River from the intersection of the river with the  
6 southern boundary of the Salmon-Trinity Primitive Area  
7 downstream to the river mouth near Burnt Ranch; South Fork of  
8 the Trinity from the junction of the river with State Highway Route  
9 36 to the river mouth near ~~Salver~~ *Salver*.

10 (c) Smith River. The main stem from the confluence of the  
11 Middle and South Forks to its mouth at the Pacific Ocean; the  
12 Middle Fork from its source about three miles south of Sanger  
13 Lake as depicted on 1956 USGS 15' "Preston Peak" topographic

13 California-Oregon boundary to the confluence with an unnamed  
14 tributary in the northern quarter Section 5 T18N R2E as depicted  
15 on 1951 USGS 15' "Gasquet" topographic map; the North Fork  
16 from the confluence with an unnamed tributary in northern quarter  
17 of Section 5 T18N R2E to the southernmost intersection of eastern  
18 boundary Section 5 T18N R2E as depicted on 1951 USGS 15'  
19 "Gasquet" topographic map; the North Fork from the southern-most  
20 intersection of the eastern boundary Section 5 T18N R2E as  
21 depicted on 1951 USGS 15' "Gasquet" topographic map to the  
22 confluence with Stony Creek; the North Fork from the confluence  
23 with Stony Creek to the confluence with the Middle Fork; Diamond  
24 Creek from the California-Oregon state boundary to the confluence  
25 with High Plateau Creek; Diamond Creek from the confluence  
26 with High Plateau Creek to the confluence with the North Fork;  
27 Bear Creek from its source in Section 24 T18N R2E as depicted  
28 on 1951 USGS 15' "Gasquet" topographic map to the confluence  
29 with Diamond Creek; Still Creek from its source in Section 11  
30 T18N R1E as depicted on 1952 USGS 15' "Crescent City"  
31 topographic map to the confluence with the North Fork Smith  
32 River; North Fork Diamond Creek from the California-Oregon  
33 state boundary to the confluence with Diamond Creek; High  
34 Plateau Creek from its source in Section 26 T18N R2E as depicted  
35 on 1951 USGS 15' "Gasquet" topographic map to northern  
36 boundary Section 23 T18N R2E; High Plateau Creek from the  
37 northern boundary Section 23 T18N R2E to the confluence with  
38 Diamond Creek; the Siskiyou Fork from its source about 0.7 miles  
39 southeast of Broken Rib Mountain as depicted on 1956 USGS 15'  
40 "Preston Peak" topographic map to the confluence with the South

1 Siskiyou Fork; the Siskiyou Fork from its confluence with the  
2 South Siskiyou Fork to the confluence with the Middle Fork; the  
3 South Siskiyou Fork from its source about 0.6 miles southwest of  
4 Buck Lake as depicted on 1956 USGS 15' "Preston Peak"  
5 topographic map to the confluence with the Siskiyou Fork; the  
6 South Fork from its source about 0.5 miles southwest of Bear  
7 Mountain as depicted on 1956 USGS 15' "Preston Peak"  
8 topographic map to Blackhawk Bar; the South Fork from  
9 Blackhawk Bar to the confluence with the Middle Fork; Williams  
10 Creek from its source in Section 31 T14N R4E as depicted on 1952  
11 USGS 15' "Ship Mountain" topographic map to the confluence  
12 with Eight Mile Creek; Eight Mile Creek from its source in Section  
13 29 T14N R4E as depicted on 1955 USGS 15' "Dillon Mountain"  
14 topographic map to the confluence with the South Fork; the  
15 Prescott Fork from its source about 0.5 miles southeast of Island  
16 Lake as depicted on 1955 USGS 15' "Dillon Mountain"  
17 topographic map to the confluence with the South Fork; Quartz  
18 Creek from its source in Section 31 T16N R4E as depicted on 1952  
19 USGS 15' "Ship Mountain" topographic map to the confluence  
20 with the South Fork; Jones Creek from its source in Section 36  
21 T16N R3E as depicted on 1952 USGS 15' "Ship Mountain"  
22 topographic map to the middle of Section 5 T15N R3E; Jones  
23 Creek from the middle of Section 5 T15N R3E to the confluence  
24 with the South Fork; Hurdygurdy Creek from its source about 0.4  
25 miles southwest of Bear Basin Butte as depicted on 1956 USGS  
26 15' "Preston Peak" topographic map to the confluence with the  
27 South Fork; Gordon Creek from its source in Section 18 T16N  
28 R3E as depicted on 1951 USGS 15' "Gasquet" topographic map  
29 to the confluence with the South Fork; Coon Creek from the  
30 junction of the two-source tributaries in the southwest quadrant of  
31 Section 31 T17N R3E as depicted on 1951 USGS 15' "Gasquet"  
32 topographic map to the western boundary Section 14 T16N R2E;  
33 Coon Creek from the western boundary Section 14 T16N R2E to  
34 the confluence with the South Fork; Craigs Creek from its source  
35 in Section 36 T17N R2E as depicted on 1951 USGS 15' "Gasquet"  
36 topographic map to the confluence with the South Fork; Buck  
37 Creek from its source at Cedar Camp Spring as depicted on 1952  
38 USGS 15' "Ship Mountain" topographic map to the confluence  
39 with the South Fork; Muzzleloader Creek from its source in Section  
40 2 T15N R3E as depicted on 1952 USGS 15' "Ship Mountain"

1 topographic map to the confluence with Jones Creek; Canthook  
2 Creek from its source in Section 2 T15N R2E as depicted on 1952  
3 USGS 15' "Ship Mountain" topographic map to the confluence  
4 with South Fork.

5 (d) Eel River. The main stem from 100 yards below Van Arsdale  
6 Dam to the Pacific Ocean; the South Fork of the Eel from the  
7 mouth of Section Four Creek near Branscomb to the river mouth  
8 below Weott; Middle Fork of the Eel from the intersection of the  
9 river with the southern boundary of the Middle Eel-Yolla Bolly  
10 Wilderness Area to the river mouth at Dos Rios; North Fork of the  
11 Eel from the Old Gilman Ranch downstream to the river mouth  
12 near Ramsey; Van Duzen River from Dinsmores Bridge  
13 downstream to the river mouth near Fortuna.

14 (e) American River. The North Fork from its source to the Iowa  
15 Hill Bridge; the Lower American from Nimbus Dam to its junction  
16 with the Sacramento River.

17 (f) (1) West Walker River. The main stem from its source to  
18 the confluence with Rock Creek near the town of Walker; Leavitt  
19 Creek from Leavitt Falls to the confluence with the main stem of  
20 the West Walker River.

21 (2) Carson River. The East Fork from the Hangman's Bridge  
22 crossing of State Highway Route 89 to the California-Nevada  
23 border.

24 (3) The Legislature finds and declares that, because the East  
25 Fork Carson River and West Walker River are interstate streams,  
26 and a source of agricultural water and domestic water for  
27 communities within the counties of Alpine and Mono where they  
28 originate, it is necessary that the following special provisions apply:

29 (A) Nothing in this subdivision shall be construed to prohibit  
30 the replacement of diversions or changes in the purpose of use,  
31 place of use, or point of diversion under existing water rights,  
32 except that (i) no replacement or change shall operate to increase  
33 the adverse effect, if any, of the preexisting diversion facility or  
34 place or purpose of use, upon the free-flowing condition and natural  
35 character of the stream, and (ii) after January 1, 1990, no new  
36 diversion shall be constructed unless and until the secretary  
37 determines that the facility is needed to supply domestic water to  
38 the residents of any county through which the river or segment  
39 flows and that the facility will not adversely affect the free-flowing  
40 condition and natural character of the stream.

1 (B) Nothing in this chapter shall be construed as quantifying or  
2 otherwise affecting any equitable apportionment, or as establishing  
3 any upper limit, between the State of California and the State of  
4 Nevada of the waters of these streams.

5 (g) (1) The South Yuba River: From Lang Crossing to its  
6 confluence with Kentucky Creek below Bridgeport.

7 (2) Nothing in this subdivision shall prejudice, alter, delay,  
8 interfere with, or affect in any way, the existing rights of the Placer  
9 County Water Agency, the implementation of those rights; any  
10 historic water use practices; the replacement, maintenance, repair,  
11 operation, or future expansion of existing diversions, storage,  
12 powerhouses, or conveyance facilities or other works by the Placer  
13 County Water Agency; or changes in the purpose of use, places  
14 of use, points of diversion, or ownership of those existing water  
15 rights; nor shall anything in this subdivision preclude the issuance  
16 of any governmental authorization needed for utilization of those  
17 rights, except that no changes shall operate to increase the adverse  
18 effect, if any, of the preexisting facilities or places, or the purposes  
19 of use upon the free-flowing and natural character of the river  
20 segment designated herein.

21 ~~(3) This subdivision shall become operative on January 1, 2001.~~

22 (h) Albion River. The Albion River from one-fourth mile  
23 upstream of its confluence with Deadman Gulch downstream to  
24 its mouth at the Pacific Ocean.

25 (i) Gualala River. The main stem Gualala River from the  
26 confluence of the North and South Forks to the Pacific Ocean.

27 (j) (1) Cache Creek from one-fourth mile below Cache Creek  
28 Dam to Camp Haswell.

29 (2) North Fork Cache Creek from the Highway 20 bridge to the  
30 confluence with the mainstem.

31 (3) The designation of Cache Creek under paragraphs (1) and  
32 (2) shall not prejudice, alter, delay, interfere with, or affect in any  
33 way, the existing water rights of the Yolo County Flood Control  
34 and Water Conservation District, or public water agencies within  
35 the Cache Creek watershed lying in the County of Lake, including  
36 the range of operations permitted under these existing water rights;  
37 any historic water use practices within existing water rights; or the  
38 replacement, maintenance, repair, or future expansion within  
39 existing water rights of existing diversion, storage, powerhouse,  
40 or conveyance facilities or other works by the Yolo County Flood

1 Control and Water Conservation District or public water agencies  
2 within the Cache Creek watershed lying in the County of Lake.

3 (4) The designation of Cache Creek under paragraphs (1) and  
4 (2) shall not prejudice, alter, delay, interfere with, or affect any  
5 changes to the existing water rights of the Yolo County Flood  
6 Control and Water Conservation District, including changes to the  
7 purpose of use, place of use, points of diversion, quantity of water  
8 diverted, or ownership, or applications by the district for new water  
9 rights; provided, that the changes or applications do not involve  
10 the construction of a dam, reservoir, diversion, or other water  
11 impoundment facility within the segments of Cache Creek  
12 designated in paragraphs (1) and (2). Any such change or  
13 application shall be subject to all applicable constitutional,  
14 statutory, and judicial requirements, including the public trust  
15 doctrine.

16 (5) As the waters of the Cache Creek watershed are the sole  
17 source of supply within that watershed for the County of Lake, the  
18 designation of Cache Creek under paragraphs (1) and (2) shall not  
19 prejudice, alter, delay, interfere with, or affect any changes to the  
20 existing water rights of the public water agencies within the Cache  
21 Creek watershed lying in the County of Lake, including changes  
22 to the purpose of use, place of use, points of diversion, quantity  
23 of water diverted, or ownership, or applications by these agencies  
24 for new water rights; provided, that the changes or applications  
25 do not involve the construction of a dam, reservoir, diversion, or  
26 other water impoundment facility within the segments of Cache  
27 Creek designated in paragraphs (1) and (2). Any such change or  
28 application shall be subject to all applicable constitutional,  
29 statutory, and judicial requirements, including the public trust  
30 doctrine.

31 (6) (A) The designation of Cache Creek under paragraphs (1)  
32 and (2) shall not impair or affect in any way activities to manage  
33 or remove invasive or nonnative plants and animal species.

34 (B) The designation of Cache Creek under paragraphs (1) and  
35 (2) shall not impair or affect in any way activities to remediate  
36 mercury pollution; provided, that this activity does not involve the  
37 construction of a dam, reservoir, diversion, or other water  
38 impoundment facility within the segments of Cache Creek  
39 designated in paragraphs (1) and (2).

1 (7) (A) Neither the Governor nor an employee of a state agency  
 2 or department shall apply to a secretary, department, agency, or  
 3 other entity of the federal government for the designation of any  
 4 portion of Cache Creek as a component of the national wild and  
 5 scenic rivers system under the federal Wild and Scenic Rivers Act  
 6 (16 U.S.C. Sec. 1271 et seq.).

7 (B) Neither the Governor nor an employee of a state agency or  
 8 department shall expend funds preparing, filing, or otherwise  
 9 submitting an application to a secretary, department, or other entity  
 10 of the federal government for the designation of any portion of  
 11 Cache Creek as a component of the national wild and scenic rivers  
 12 system under the federal Wild and Scenic Rivers Act (16 U.S.C.  
 13 Sec. 1271 et seq.).

14 (8) To the extent that this subdivision conflicts with other  
 15 provisions of this chapter, this subdivision shall control.

16 (k) (1) *North Fork Mokelumne River from 0.25 miles*  
 17 *downstream of Salt Springs Dam to the southern boundary of*  
 18 *Section 12, T6N, R12E.*

19 (2) *North Fork Mokelumne River from 1,400 feet upstream of*  
 20 *the South Fork Mokelumne River confluence.*

21 (3) *The main stem of the Mokelumne River from the confluence*  
 22 *of the North and South Forks to the upper extent of Pardee*  
 23 *Reservoir downstream of Highway 49, as the reservoir exists on*  
 24 *January 1, 2015.*

25 ~~(k) Other rivers which qualify~~

26 (l) *Rivers that qualify* for inclusion in the system may be  
 27 recommended to the Legislature by the secretary.

28 *SEC. 3. Section 5093.545 of the Public Resources Code is*  
 29 *amended to read:*

30 5093.545. The classifications heretofore established by the  
 31 secretary for the rivers or segments of rivers included in the system  
 32 are revised and adopted as follows:

	Rivers	Classification
35 (a)	Klamath River: The Klamath River from the	
36	FERC Project 2082 downstream boundary	
37	in Section 17 T47N R5W as shown on	
38	Exhibit K-7 sheet 1 dated May 25, 1962, to	
39	the river mouth at the Pacific Ocean	Recreational
40 (b)	Scott River:	

1	(1)	The Scott River from Shackelford Creek to	
2		McCarthy Creek	Recreational
3	(2)	The Scott River from McCarthy Creek to	
4		Scott Bar	Scenic
5	(3)	The Scott River from Scott Bar to the	
6		confluence with the Klamath River	Recreational
7	(c)	Salmon River:	
8	(1)	The Salmon River from the Forks of	
9		Salmon to the Lewis Creek confluence	Recreational
10	(2)	The Salmon River from the Lewis Creek	
11		confluence to the Wooley Creek confluence	Scenic
12	(3)	The Salmon River from the Wooley Creek	
13		confluence to the confluence with the	
14		Klamath River	Recreational
15	(4)	The South Fork of the Salmon River from	
16		Cecilville to St. Claire Creek confluence	Recreational
17	(5)	The South Fork from St. Claire Creek	
18		confluence to the Matthews Creek	
19		confluence	Scenic
20	(6)	The South Fork from Matthews Creek	
21		confluence to the Forks of Salmon	Recreational
22	(7)	The North Fork of the Salmon River from	
23		Marble Mountain Wilderness boundary to	
24		Mule Bridge Campground in Section 35	
25		T12N R11W and Section 12 T11N R11W	Wild
26	(8)	The North Fork from Mule Bridge	
27		Campground to the Forks of Salmon	Recreational
28	(9)	Wooley Creek from the Marble Mountain	
29		Wilderness Area boundary to ½ mile	
30		upstream of the confluence with Salmon	
31		River	Wild
32	(10)	Wooley Creek downstream ½ mile above	
33		the confluence with the Salmon River	Recreational
34	(d)	Trinity River:	
35	(1)	The Trinity River from 100 yards below	
36		Lewiston Dam to Cedar Flat Creek	
37		confluence	Recreational
38	(2)	The Trinity River from Cedar Flat Creek	
39		confluence to Gray Falls	Scenic

- |    |      |   |              |
|----|------|---|--------------|
| 1  | (3)  | The Trinity River from Gray Falls to the west boundary of Section 2 T8N R4E   | Recreational |
| 2  | (4)  | The Trinity River from the west boundary of Section 2 T8N R4E to the confluence with the Klamath River at Weitchpec   | Scenic       |
| 3  | (5)  | The North Fork of the Trinity River from the Trinity Alps Primitive Area boundary to north boundary Section 20 T34N R11W  | Wild         |
| 4  | (6)  | The North Fork from the north boundary Section 20 T34N R11W to mouth  | Recreational |
| 5  | (7)  | The South Fork Trinity River from Forest Glen to Hidden Valley Ranch  | Wild         |
| 6  | (8)  | The South Fork from Hidden Valley Ranch to the Naufus Creek confluence in Section 8 T1N R7E   | Scenic       |
| 7  | (9)  | The South Fork from the Naufus Creek confluence in Section 8 T1N R7E to Johnson Creek confluence near the boundary of Sections 13 and 14 T2N R6E                    | Wild         |
| 8  | (10) | The South Fork from Johnson Creek confluence near the boundary of Sections 13 and 14 T2N R6E to the boundary of Sections 25 and 36 T2N R6E                          | Scenic       |

32		Edwards Crossing to its	
33		confluence with Kentucky Creek	
34		below Bridgeport	Scenic
35	(2)	This subdivision shall become operative	
36		January 1, 2001.	
37	(m)	Albion River: The Albion River from one-fourth	
38		mile upstream of its confluence with	
39		Deadman Gulch downstream to its mouth at	
40		the Pacific Ocean	Recreational

- 1 (n) Gualala River: The main stem Gualala  
 2 River from the confluence of the North and  
 3 South Forks to the Pacific Ocean                      Recreational
- 4 (o) Cache Creek:  
 5 (1) North Fork Section:  
 6 From Highway 20 two miles downstream to  
 7 the confluence of Cache Creek and the North  
 8 Fork Cache Creek    Scenic
- 9 (2) Mainstem Section:  
 10 (A) ¼ mile downstream of Cache Creek  
 11 Dam to the confluence with Davis Creek              Wild  
 12 (B) Davis Creek confluence to 1 mile  
 13 downstream of Davis Creek confluence              Scenic  
 14 (C) 1 mile downstream of Davis Creek  
 15 confluence to western boundary of  
 16 Section 6 T12N R4W    Wild  
 17 (D) Western boundary of Section 6  
 18 to the confluence with Bear Creek                      Scenic  
 19 (E) Bear Creek confluence to Camp  
 20 Haswell    Recreational
- 21 (p) Mokolumne River:  
 22 (1) North Fork Segments:  
 23 (A) From 0.25 miles downstream of  
 24 Salt Springs Reservoir to 0.50 miles  
 25 downstream of the Bear River confluence              Recreational  
 26 (B) From 0.50 miles downstream of  
 27 the Bear River confluence to  
 28 the National Forest boundary                              Wild  
 29 (C) From 300 feet below Tiger Creek  
 30 Afterbay to 300 feet upstream of the Electra  
 31 Diversion Dam and West Point Powerhouse              Recreational  
 32 (D) From 300 feet downstream of the  
 33 small reregulating dam at the outlet of the  
 34 West Point Powerhouse to the  
 35 southern boundary of Section 12, T6N, R12E              Wild  
 36 (E) From 1,400 feet upstream of the  
 37 South Fork Mokolumne River confluence to the  
 38 South Fork Mokolumne River confluence              Wild
- 39 (2) Main Stem Segment:

- 1                   (A) From the South Fork Mokolumne River
- 2                   confluence to 300 feet upstream
- 3                   of Ponderosa Way Bridge                   Wild
- 4                   (B) From 300 feet upstream of the Ponderosa
- 5                   Way Bridge to 300 feet upstream
- 6                   of the Electra Powerhouse                   Scenic
- 7                   (C) From 300 feet downstream of the
- 8                   small reregulating dam downstream of the
- 9                   Electra Powerhouse to the upper extent of
- 10                  Pardee Reservoir downstream of
- 11                  Highway 49, as the reservoir
- 12                  exists of January 1, 2015                   Recreational

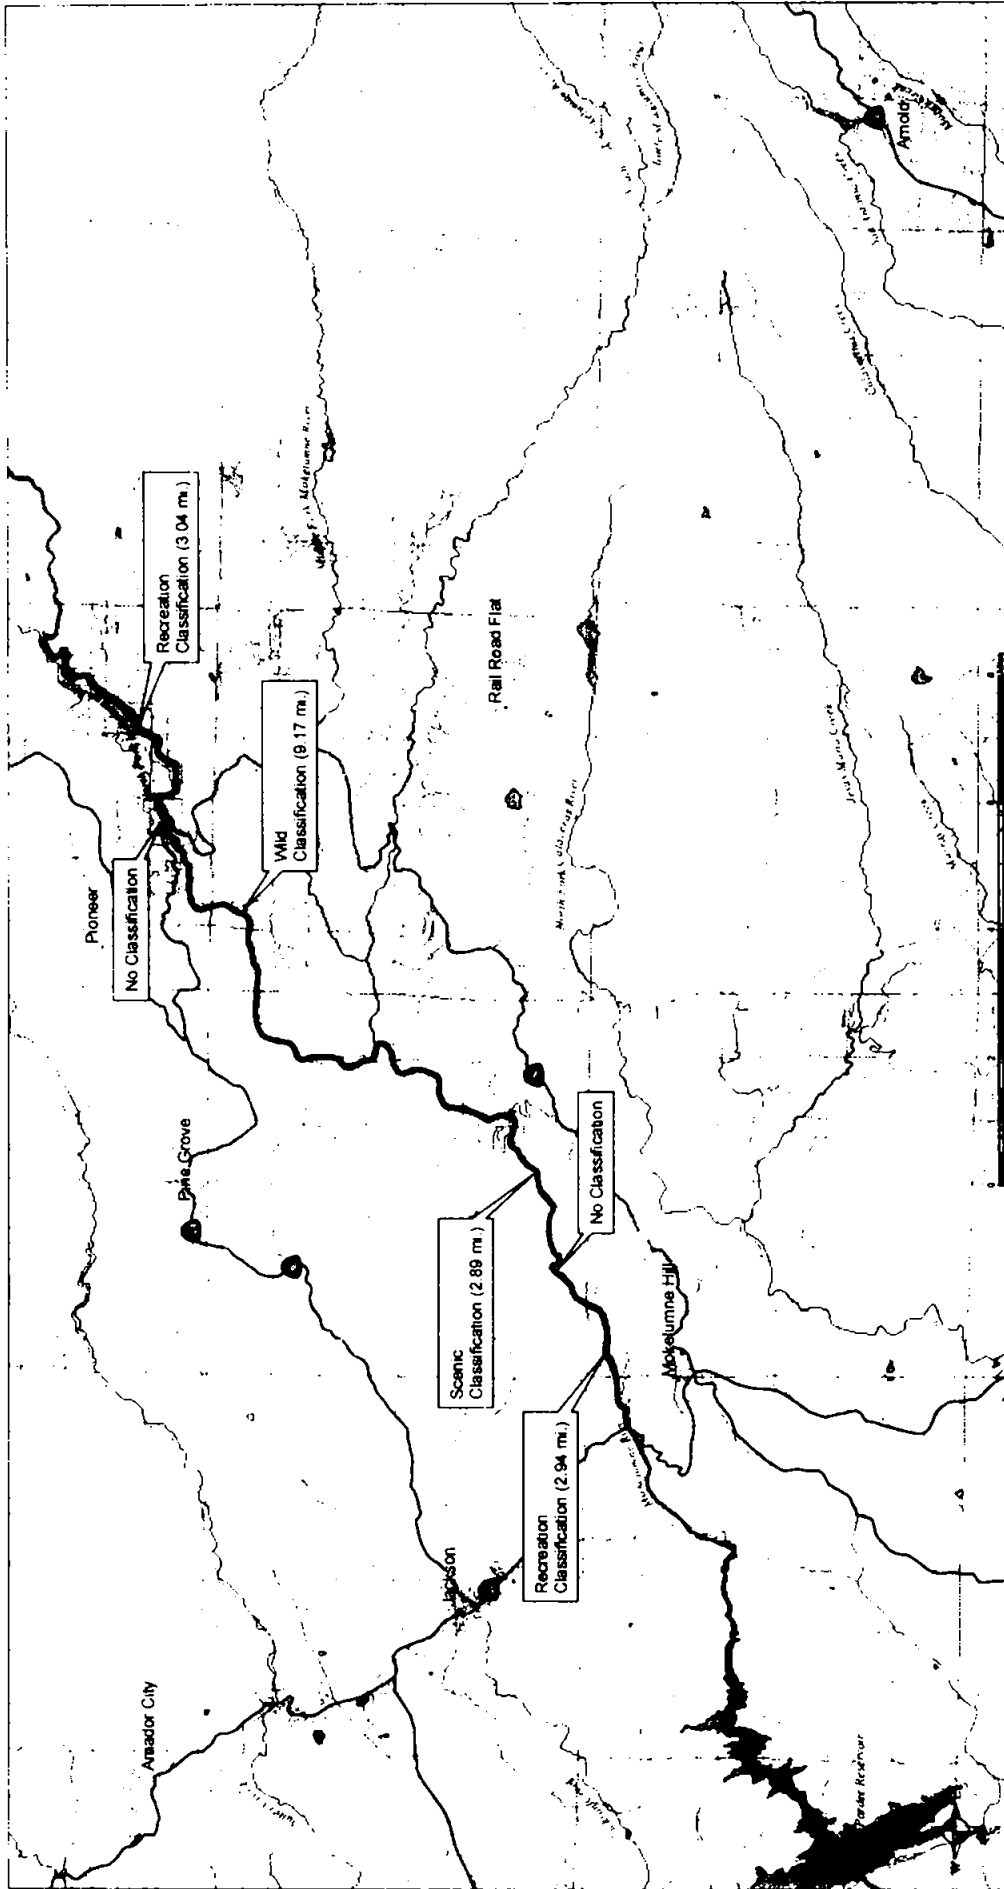

14       ~~SECTION 1. Section 5508 of the Public Resources Code is~~  
 15       ~~amended to read:~~

16       ~~5508. Notice of the hearing, specifying the time and place,~~  
 17       ~~shall be published twice in a newspaper of general circulation in~~  
 18       ~~the county conducting the hearing. The first publication shall be~~  
 19       ~~at least ten days before the day of the hearing. The notice shall~~  
 20       ~~also be posted online and be publicly accessible on the county's~~  
 21       ~~Internet Web site, if the county has an Internet Web site.~~

22       ~~SEC. 2. Section 5511 of the Public Resources Code is amended~~  
 23       ~~to read:~~

24       ~~5511. Notice of the hearing, specifying the time and place,~~  
 25       ~~shall be published twice in a newspaper of general circulation in~~  
 26       ~~the county conducting the hearing. The first publication shall be~~  
 27       ~~at least ten days before the day of the hearing. The notice shall~~  
 28       ~~also be posted online and be publicly accessible on the county's~~  
 29       ~~Internet Web site, if the county has an Internet Web site.~~

30       ~~SEC. 3. If the Commission on State Mandates determines that~~  
 31       ~~this act contains costs mandated by the state, reimbursement to~~  
 32       ~~local agencies and school districts for those costs shall be made~~  
 33       ~~pursuant to Part 7 (commencing with Section 17500) of Division~~  
 34       ~~4 of Title 2 of the Government Code.~~
