

Dear Customer:

On July 10, 2013, the CCWD Board of Directors adopted Ordinance 2013-01 Modifying Rates for Water and Wastewater Services as of September 1, 2013. Section 5 of the ordinance, ***“Use of Additional Revenue,”*** states that ***“Funds received as a result of a rate increase over the current rates as of July 10, 2013 must be placed in a restricted fund and the funds must be used to fund renovation and replacement of the District’s existing capital infrastructure.”***

Your first statement that includes the new rates will have a prorated **increase** amount due to part of your billing period being prior to the rate increase.

Following is a key that explains the line items in the “CURRENT CHARGES” section of your statement:

- A. This charge is the base rate for water service.
- B. This charge is the base water consumption charge.
- C. This charge is the water base rate amount of the rate increase which is designated for CCWD Capital project renovation and replacement.
- D. This charge is the water consumption rate amount of the rate increase which is designated for CCWD Capital project renovation and replacement.
- E. This charge is the base rate for sewer service.
- F. This charge is the sewer base rate amount of the rate increase which is designated for CCWD Capital project renovation and replacement.

Please see statement sample below

Please contact your customer service representative if you need additional clarification on your billing statement. 209-754-3543; 8:00 a.m. to 4:00 p.m, Monday through Friday.
