

RESOLUTION NO. 2020-27 RESOLUTION NO. PFA-03 ORDINANCE NO. 2020-01

# **AGENDA**

# **MISSION STATEMENT**

"Our team is dedicated to protecting, enhancing, and developing our rich water resources to the highest beneficial use for Calaveras County, while maintaining cost-conscious, reliable service, and our quality of life, through responsible management."

Regular Board Meeting Wednesday, May 13, 2020 1:00 p.m. Calaveras County Water District 120 Toma Court, (PO Box 846) San Andreas, California 95249

Based on guidance from the California Governor's Office and Department of Public Health, in order to minimize the potential spread of the COVID-19 virus, the Calaveras County Water District will convene its public meetings of the Board of Directors telephonically until further notice.

Join meeting

Meeting number (access code): 624 649 049 Meeting password: CCWD05132020 (22930513 from phones and video systems)

Or join by phone <u>+1-408-418-9388</u> Meeting number (access code): 624 649 049

In compliance with the Americans with Disabilities Act, if you need special assistance to participate in this meeting, please contact the Administration Office at 209-754-3028. Notification in advance of the meeting will enable CCWD to make reasonable arrangements to ensure accessibility to this meeting. Any documents that are made available to the Board before or at the meeting, not privileged or otherwise protected from disclosure, and related to agenda items, will be made available at CCWD for review by the public.

# **ORDER OF BUSINESS**

# CALL TO ORDER / PLEDGE OF ALLEGIANCE

1. <u>ROLL CALL</u>

# **BOARD OF DIRECTORS**

### 2. <u>PUBLIC COMMENT</u>

At this time, members of the public may address the Board on any non-agendized item. The public is encouraged to work through staff to place items on the agenda for Board consideration. No action can be taken on matters not listed on the agenda. Comments are limited to three minutes per person.

#### 3. <u>CONSENT AGENDA</u>

The following items are expected to be routine/non-controversial. Items will be acted upon by the Board at one time without discussion. Any Board member may request that any item be removed for later discussion.

- 3a Approval of Minutes for the Board Meetings of April 22, 2020.
- 3b Review Board of Directors Monthly Time Sheets for April, 2020

- 3b Review of the FY 2019-20 Third Quarter Investment Report (Rebecca Callen, Director of Administrative Services)

# AYES:Directors Ratterman, Thomas, Secada and UnderhillNOES:NoneABSTAIN:NoneABSENT:Davidson

Director Davidson arrived at 1:05 p.m.

# 4. <u>NEW BUSINESS</u>

4a Discussion regarding the District's COVID-19 Response (Michael Minkler, General Manager)

### DISCUSSION:

- Mr. Minkler asked Al Alt, Calaveras County CAO to update the Board on the potential golf course reopening. He explained that Dr. Kelaita, Calaveras County's Public Health Officer, is considering allowing certain recreational activities, such as golf, may reopen as long as the county numbers remain low into the beginning of May. Dr. Alt has a meeting with various golf course management this afternoon to discuss how they may safely reopen. Director Davidson asked about the status of the letter sent to the Board of Supervisors (BOS) from the CCWD Board of Directors asking for the golf courses to be considered as essential businesses for the long-term. Dr. Alt has not presented the letter to the BOS since the restrictions could be lifted very soon. He is working collectively with the golf courses to come up with restrictions they can agree on. Director Davidson reminded everyone that the golf courses have the threat of a state fine and are obligated to run the spray fields. He would like a formal response from the Public Health Officer regarding the essential nature of the golf courses which will allow the District to plan accordingly. Dr. Alt responded that he is confident the recreational aspect of the golf course would remain nonessential. Director Thomas recommended reaching out to San Joaquin and Sacramento Counties to review the restrictions that have put in place on their golf courses. There was more discussion on the various Counties and how they are handling closures. Direction was given to agendize this topic at the next Engineering Committee and discuss with ACWA.
- Mr. Minkler continued to update the Board on the District's COVID-19 response. Those
  who are able to work from home are doing so and the field staff are working with social
  distancing guidelines. He reviewed projects that may require customer shut-offs. There will
  be extra communication with customers when shut-offs are required for a project.
- Mr. Minkler discussed the Families First Corona Virus Response Act. He explained that it allows the District employees up to 80 hours paid sick leave for qualifying COVID-19 reasons. If it becomes a burden to District operations, the District has the discretion to designate staff as first responders, which would deem them ineligible for the emergency paid sick leave.

 Ms. Callen gave an update to the Board about the financial impact of COVID-19 to date. At this point customer delinquencies are up about 5% on cycle 1 billing. The next billing will occur in May. There are also reductions in interest revenue. There was discussion on the late accounts and staff projections.

# President Underhill moved item 4b to the end of the agenda after Closed Session.

4b Discussion/Action regarding Approval of an Amendment to the current Management and Confidential Unit Agreement (Stacey Lollar, Human Resources Manager) RES 2020-\_\_\_\_

# 5. <u>REPORTS</u>

5a General Manager Report

**DISCUSSION:** Mr. Minkler reported on the following activities: 1) budget development and capital improvement meetings are in progress; 2) there is more infrastructure funding available at the Federal level and will be discussed at the upcoming Legal Affairs meeting; and 3) there will be updates on Water Resources issues for the Board over the next month and the job posting for the Water Resources Manager has been re-circulated for new candidates.

# 6. BOARD REPORTS / INFORMATION / FUTURE AGENDA ITEMS

<u>Director Secada</u> attended the Tuolumne-Stanislaus Integrated Regional Water Management Joint Powers Authority meeting virtually. The Technical Assistant Grant workplan has been approved. The T-STAN membership dues have been lowered from \$12,000 to \$8,064 for the next fiscal year. The Stormwater Project Identification Toolkit approved a \$30,000 expenditure to move on to Phase 2 of that project in Twain Harte.

<u>Director Ratterman</u> reported that Mountain Counties had a meeting about John Kinsbury's retirement. An ad hoc committee was created to review the candidates.

<u>Director Thomas</u> would like to reach out to Gene Mancebo. He thinks someone should attend the webinar tomorrow put on by ACWA about virtual meetings and the Brown Act. Rebecca Hitchcock responded that she would be attending the webinar to make sure the District is handling the virtual meetings correctly.

Director Davidson had nothing to report.

Director Underhill reported that Camp Connell is very quiet during the quarantine.

### 7. NEXT BOARD MEETINGS

- Wednesday, May 13, 2020, 1:00 p.m., Regular Board Meeting
- Wednesday, May 27, 2020, 1:00 p.m., Regular Board Meeting

The meeting adjourned into Closed Session at approximately 2:05 p.m. Those present were Board Members: Russ Thomas, Bertha Underhill, Cindy Secada, Jeff Davidson, and Scott Ratterman; staff members Michael Minkler, General Manager, Stacey Lollar, Human Resources Manager (for item 8a) and Matt Weber, General Counsel.

# 8. <u>CLOSED SESSION</u>

- 8a Government Code § 54957.6 Agency Negotiators: General Manager, Michael Minkler, HR Manager, Stacey Lollar Regarding Negotiations with Employee Organization SEIU Local 1021 and Management and Confidential Unit
- 8b Conference with Legal Counsel Existing Litigation Government Code § 54956.9(a) La Contenta Investors, LTD vs. CCWD (Calaveras County Superior Court #11CV37713)
- 8c Conference with Legal Counsel-Existing Litigation Government Code 54956.9(d)(1)
   California Sportfishing Protection Alliance v. All persons interested in the matter of the validity of the Eastern San Joaquin Groundwater Subbasin groundwater sustainability plan et al. (Stanislaus County Superior Court Case # CV20-1720)

# 9. REPORTABLE ACTION FROM CLOSED SESSION

The Board reconvened into Open Session at approximately 3:43 p.m. There was no reportable action.

President Underhill moved item 4b to the end of the agenda after Closed Session.

### MOTION: Directors Davidson/Thomas - Adopted Resolution No. 2020-26 Amending the current Management and Confidential Unit Agreement

4b Discussion/Action regarding Approval of an Amendment to the current Management and Confidential Unit Agreement (Stacey Lollar, Human Resources Manager) **RES 2020-26** 

**<u>DISCUSSION</u>**: Mr. Minkler reported that the Management Confidential Unit wishes to extended their existing contract for one year.

**PUBLIC COMMENT:** There was no public comment.

YES: Directors Davidson, Thomas, Ratterman, Secada, and Underhill NOES: None ABSTAIN: None ABSENT: None

### 10. ADJOURNMENT

With no further business, the meeting adjourned at 3:45 p.m.

By:

ATTEST:

Michael Minkler General Manager Rebecca Hitchcock Clerk to the Board

# **Agenda Item**

DATE: May 13, 2020

TO: Michael Minkler, General Manager

FROM: Rebecca Hitchcock, Clerk to the Board

SUBJECT: Review Board of Directors Time Sheets for April, 2020

# **RECOMMENDED ACTION:**

For information only.

# SUMMARY:

TO: Michael Minkler, General Manager

FROM: Rebecca Callen, Director of Administrative Services

SUBJECT: Authorized Representatives on Chandler Asset Management Investment Account

# **RECOMMENDED ACTION:**

Motion: \_\_\_\_\_/\_\_\_\_ adopting Resolution 2020-\_\_\_ Authorizing Signers for Chandler Asset Management.

# SUMMARY:

The District has been working through the details of engaging with Chandler to identify additional forms, signature authority, and policy changes. In order to give direction to Chandler Asset Management or receive reporting, the District is required to establish a list of Authorized Representatives.

The Resolution to establish this list is the same as the Local Agency Investment Fund signatory list, mostly recently updated on January 22, 2020.

Established CCWD financial transaction protocol requires the General Manager and Director of Administrative Services authorization prior to initiating an investment transaction. All financial transactions will be handled per Board policy.

# FINANCIAL CONSIDERATIONS:

None

# **RESOLUTION 2020-**

# A RESOLUTION OF THE BOARD OF DIRECTORS OF THE CALAVERAS COUNTY WATER DISTRICT

# AUTHORIZING SIGNATURES FOR CHANDLER ASSET MANAGEMENT INSTRUCTIONS

**WHEREAS**, On February 12, 2020, the Board of Director approved direction to engaged with Chandler Asset Management for Investment Management Services; and

**WHEREAS,** the Board of Directors approved an updated Authorized signature resolution on January 22, 2020 for Umpqua, Local Agency Investment Fund (LAIF), and Wells Fargo.

**NOW, THEREFORE, BE IT RESOLVED,** that the Board of Directors of CALAVERAS COUNTY WATER DISTRICT does hereby establish the same signature authority for Chandler Asset Management Authorized Representatives as LAIF.

**BE IT FURTHER RESOLVED,** that the following Calaveras County Water District Officers shall be authorized to give instruction to and receive information from Chandler Asset Management concerning the Chandler Asset Management Account:

Executive Group	Finance
Michael Minkler	Rebecca Callen
General Manager	Director of Administrative Services
Stacey Lollar	Patricia Christensen
Human Resources Manager	Accountant III

SUBJECT: Discussion/Action Regarding Variance Request from the Pinebrook Homeowner's Association

# **RECOMMENDED ACTION**

Motion: \_\_\_\_\_/\_\_\_\_ to adopt Resolution No. 2020-\_\_\_\_ Granting a Variance to Section 35 of the Rules and Regulations Governing the Furnishing of Water and or Wastewater Services and authorizing the Pinebrook Homeowners Association to irrigate multiple parcels using a single water meter.

# SUMMARY

The Pinebrook Homeowners Association (Pinebrook), located in Arnold, was formed in the 1960s and operated its own water system until it was annexed by CCWD in 1988. Three CCWD commercial meters and one landscape meter were installed in 1990 to serve recreational facilities owned by Pinebrook. According to Pinebrook, the irrigation system itself predates the 1988 annexation.

Pinebrook has applied to terminate service for two of its commercial meters and staff is conducting a review of that request. During staff's review of two termination of service requests, it came to light that Pinebrook had historically irrigated multiple parcels with one of its commercial meters and was continuing to do so. This practice was identified as a violation of Article IV, Section 35, of CCWD's Rules and Regulations Governing the Furnishing of Water and/or Wastewater Services. The District's policy prohibits property owners from serving multiple parcels from the same meter.

This policy violation was raised with Pinebrook representatives and they looked into the costs of merging lots to come into compliance with CCWD's policy. However, that option was deemed by Pinebrook to be too expensive. This led to Pinebrook submitting a written request on January 8, 2020, seeking a variance that would allow them to continue to operate their existing irrigation system. Pinebrook believes that its historic practices, dating back to the 1960s, of irrigating multiple parcels using one water meter, and the fact that the practice continued after CCWD annexed Pinebrook into its system in 1988, creates circumstances that should allow Pinebrook to be "grandfathered" in by the approval of a variance. Copies of Pinebrook's variance request, termination of service request, and a map of the area are attached.

# VARIANCE REQUEST DETAILS

Per a statement from Pinebrook, prior to being part of the CCWD water system, the Pinebrook community developed a recreational area consisting of eight parcels near the intersection of Moran Road and Flanders Drive in Arnold. Pinebrook representatives state that several of these parcels were historically irrigated using one water meter. When Pinebrook was annexed into the CCWD system in 1988, Pinebrook continued to irrigate multiple parcels with a single CCWD water meter, as it has done since the 1960s. Pinebrook historically and currently serves water across two parcels from one water meter. The cost to merge these lots is estimated to exceed \$4,000 with the required licensed surveying costs, title search and County fees. This is a large cost for a small HOA like Pinebrook. These parcels are integral to the Pinebrook recreational area with facilities spread across them, including a parking lot, basketball court, lawn area, volleyball court, town hall, baseball field, playground area, picnic grounds, shade structure, lighting, and a planned amphitheater.

Given the history of long-term use of the existing facilities, Pinebrook is requesting a policy variance from the CCWD Board. Pinebrook believes it has a special case that would not create an inequity to other ratepayers. Pinebrook does not believe there is a future downside to the CCWD Board granting a variance to allow irrigation of multiple parcels using the meter at 2108 Flanders Drive.

# STAFF ANALYSIS

The District's variance policy (Board Policy number 22) states: "exceptions to the District's Regulations are generally disfavored. In some unusual cases, however, an exception to or variance from the District's Regulations is needed to achieve a fair result." Under the Policy, the Board can grant a variance if the:

- 1) Granting of an exception or variance does not discriminate in favor of, or against, any applicant to the detriment of any other District customer;
- 2) Exceptions or variances must not, in any way, have the effect of establishing substandard facilities or services, or result in an unreasonable cost to the District;
- 3) The exception or variance is consistent with the District's obligation to only put water to reasonable and beneficial uses; and
- 4) Granting the exception or variance is the best way to achieve a fair result for the applicant without imposing undue costs on other customers.

In this case, the granting of a variance would result in no change to existing facilities or operations, while the denial of the variance would require the property owner to reconfigure its existing irrigation system to bring it into compliance with District policy or merge the two lots currently being irrigated by a single meter. Staff believes that the status quo does not result in any additional direct cost to other ratepayers or to the District, does not result in substandard facilities, and would not result in waste or unreasonable use of water.

The primary concern in granting the variance is that this action could be misconstrued as a relaxation of the District's prohibition against single meters serving multiple lots, which

could result in indirect costs to the District. The policy is critically important to District operations and exceptions to the policy should not be granted lightly. It would not be in the interest of the District's customers for anyone to get the false impression that the prohibition against extending service across property boundaries will not be strictly enforced. Accordingly, if the Board finds that granting the exception would be detrimental to other customers, for this reason or any other reason, then a denial of the variance would be the appropriate course of action.

Staff recommends approval of the variance if the Board finds that the approval would not be detrimental to other District customers.

# **OTHER CONSIDERATIONS:**

Pinebrook has applied to terminate two meters on its properties. Staff is evaluating those requests separately to this variance request. Additionally, District staff is evaluating whether the existing water meters are appropriately sized for the amount of water that is being used to irrigate landscaping. Staff believes these are separate matters from the policy variance presently before the Board. Staff will continue to work with Pinebrook to resolve these outstanding issues regardless of the outcome of the variance request.

# FINANCIAL CONSIDERATIONS:

None.

Attachments: CCWD Policy Article IV, Section 35 CCWD Policy No. 22 Pinebrook Variance Request Letter & Map Resolution 2020-\_\_\_\_ Granting a Variance to Rules and Regulations Governing the Furnishing of Water and/or Wastewater Service

# CALAVERAS COUNTY WATER DISTRICT RULES AND REGULATIONS GOVERNING THE FURNISHING OF WATER AND/OR WASTEWATER SERVICES

# ARTICLE IV DOMESTIC SERVICE INSIDE IMPROVEMENT DISTRICTS (ORIGINAL CONNECTIONS ONLY)

Section 35.

<u>Residential Service</u>. The District will install a meter for each legal parcel with an individual home.

<u>Commercial Service</u>. Separate business units on the same legal parcel, under a single control or management, may be served, at the option of the applicant, by either of two methods:

1. Through separate service connections and meters to each unit, provided that the piping system for each unit is independent of the others and is not interconnected; or

2. Through a single service connection and meter to the entire premises

Cost of the meter will be borne by the customer, and no water will be furnished or supplied through any connection except through a meter.

Resolution 2006-10, January 25, 2006

# CALAVERAS COUNTY WATER DISTRICT RULES AND REGULATIONS GOVERNING THE FURNISHING OF WATER AND/OR WASTEWATER SERVICES

# ARTICLE IV DOMESTIC SERVICE INSIDE IMPROVEMENT DISTRICTS (ORIGINAL CONNECTIONS ONLY)

# Section 35. (continued)

<u>Meter Ownership and Control</u>. Ownership and control of the meter shall be in each and every instance become, be and remain in the District. It is expressly understood that where a meter and other facilities including housings and connections are located in a customer's premises, no rent or other charge will be paid by the District therefor. All meters will be sealed by the District at the time of installation, and no seal shall be altered or broken except by one of the District's authorized employees or agents.

A. <u>Accessory Dwelling</u>: **Water service** for an accessory dwelling can be provided from the meter of the primary residence only if:

- 1) The accessory dwelling has been approved by Calaveras County in accordance with the Calaveras County Code Title 17, Chapter 17.66, as may be amended;
- An accessory dwelling permit from the County is attached to the CCWD application for service;
- 3) A licensed plumber has verified in writing the adequacy of the water meter size "based on the total number of fixture units to be serviced by the meter;" and
- 4) The <u>maximum</u> total floor area does not exceed nine hundred (900) square feet.

Should the meter size increase because of the accessory dwelling, additional capacity fees will be charged. Accessory dwellings that no longer qualify as an accessory dwelling, through actions such as a lot split, shall be required to have a separate connection and meter. Application for service and payment of the appropriate capacity fees and rates shall be required.

Resolution 2007-114, December 12, 2007

# CALAVERAS COUNTY WATER DISTRICT RULES AND REGULATIONS GOVERNING THE FURNISHING OF WATER AND/OR WASTEWATER SERVICES

# ARTICLE IV DOMESTIC SERVICE INSIDE IMPROVEMENT DISTRICTS (ORIGINAL CONNECTIONS ONLY)

The following shall amend Ordinance 84-1, Article V Building Sewers, Lateral Sewers and Connections, Section 5.3 Separate Sewers as follows:

Section 5.3.a. <u>Accessory Dwelling:</u> The **sewer connection** of the primary residence, "except those served by a septic tank effluent pump (STEP) system," can provide sewer service for an accessory dwelling if:

- The accessory dwelling has been approved by Calaveras County in accordance with the Calaveras County Code Title 17, Chapter 17.66, as may be amended;
- An accessory dwelling permit from the County is attached to the application for service;
- A licensed plumber has verified in writing the adequacy of sewer service for both the accessory dwelling and the primary residence based on the total number of fixture units; and
- 4) The <u>maximum</u> total floor area does not exceed 900 square feet.

Accessory dwellings to be served by a "STEP Sewer System" will be approved and fees determined on a case-by-case basis by CCWD.

The wastewater capacity fee for the accessory dwelling shall be based on 0.55 equivalents. No additional monthly rate shall be charged unless the District determines that flows in excess of 0.55 equivalents are being generated.

Accessory dwellings that no longer qualify as an accessory dwelling, through actions such as a lot split, shall be required to have a separate sewer connection. Application for service and payment of the appropriate capacity fees and rates shall be required.

Ordinance 2007-02, December 12, 2007

# CALAVERAS COUNTY WATER DISTRICT POLICY REGARDING EXCEPTIONS TO STANDARDS, RULES AND POLICES

All standards, rules, and policies (collectively, "Regulations") of the Calaveras County Water District ("District") are equally and fairly applied to every affected person or entity. Because of the potential for disparity of treatment, exceptions to the District's Regulations are generally disfavored. In some unusual cases, however, an exception to or variance from the District's Regulations is needed to achieve a fair result. Exceptions or variances will only be granted if the following findings can be made:

- 1. Granting of an exception or variance does not discriminate in favor of, or against, any applicant to the detriment of any other District customer;
- 2. Exceptions or variances must not, in any way, have the effect of establishing sub-standard facilities or services, or result in an unreasonable cost to the District;
- 3. The exception or variance is consistent with the District's obligation to only put water to reasonable and beneficial uses; and
- 4. Granting the exception or variance is the best way to achieve a fair result for the applicant without imposing undue costs on other customers.

All applicants must pay a \$3,500.00 deposit and submit an application for an exception or variance to the District's Regulations that will be reviewed by the General Manager. If the administrative review and implementation of the exception or variance is less than the deposit amount, the applicant will be refunded the difference. However, if the amount exceeds the deposit amount, the applicant is responsible to pay all additional costs. Exceptions or variances to Regulations may only be granted by the District's Board of Directors unless the Board has delegated that authority to the General Manager.

#### TO: CCWD Management, Staff, and Board Attn: Michael Minkler, Joel Metzger, Bertha Underhill

03/23/2020

FROM: Pinebrook Subdivision/HOA; Dale Pilgeram – President P.O. Box 27, Arnold, CA 95223-0027, Phone 209 795-2824, Cell 408 710-2148, Email: pilgeram@sbcglobal.net

**REFERENCE:** Many email exchanges with Joel Metzger regarding:

- . Request to disconnect 2 unused meters out of 4
- . Variance request due to one meter serving multiple parcels
- . Meter size issue for peak usage months vs no or little usage months

#### SUBJECT: CCWD Water Services at Pinebrook HOA Common Area

This letter is an attempt to clarify, for all folks involved, the status and situation at the Pinebrook HOA common recreational area parcels up here in Arnold off of Moran Road and Flanders Drive. Youwill see a parcel map for reference which shows 4 parcels where the 4 current meters are currently located. Actions requested on these parcels range from "NO ACTION" to requesting "METER TERMINATION" to need help with "ISSUES".

# 1. Meter (1) at 2093 Flanders Dr. shown as M1 at the top of the map

Status:

. This meter serves the Bathroom Facility next to the lake, (5) RV sites, a Camp Host site with a part time resident (7) months out of the year, a drinking fountain, outside showers, and a flower planting area. . Identified as Meter ID R042268759 with Account # 007817-000

Issue: None Known

Action to be Taken: NO ACTION, leave as is

#### 2. Meter (2) at 2059 Moran Rd. shown as M2 at the top left location on the map Status

. Used to provide drip watering to the trees and bushes at this entrance (sign) parcel but no longer serves any purpose. No plans to put in permanent sprinklers or watering system.

. Identified as Meter ID SN43532430 with Account # 008090-000

Issue: None Known - valid candidate for unused meter with no future plans so to be discontinued

#### Action to be Taken:

. TERMINATE METER and remove

. \$300 check has been sent in with submission to remove the meter and service

#### 3. Meter (3) at 2108 Flanders Dr; shown as M1 at the top right side of map Status:

. This meter serves the Town Hall with bathrooms and kitchen, a drinking fountain, planting area around the Town Hall, the Lawn, and (2) faucets (F1 and F2 on the map) in the BBQ area on adjacent lot 2086 Flanders Dr.. There are valve controls and a disconnected sprinkler and drip system that extends onto the baseball field lot to the right of the Town Hall parcel which will never be activated for use again.

. Identified as Meter ID SN42268802 with Account # 008091-000.

Issue 1: M(3) services two parcels

. The Pinebrook HOA is requesting a "Variance" to a CCWD policy that restricts a water meter from servicing more parcels than just one (the parcel the meter is located on?). The Pinebrook HOA recreational area was developed in the early 1960s and although there are (8) parcels making up the South side of Flanders recreational area, they have always been treated as one area for development of facilities (all are zoned "Recreational"). Originally Pinebrook had its own water system but converted to CCWD in approximately 1988. At that time either the CCWD restriction to feed water to only the parcel a meter is on did not exist or it was overlooked at the 1988 conversion to CCWD water as the layout of water delivery on those parcels had been developed in the 60's thru 70's with no consideration of a single parcel service restriction. We historically and currently serve water across (2) parcels from one meter. The cost will exceed \$4,000 to merge these lots into one lot with the required county permit, recording costs, the required

title search, and the required use of a licensed surveyor to do the paper work. This is a large cost for a small HOA like Pinebrook. To resolve the issue on this one meter at 2108 Flanders Dr, we are asking you to support us by granting a "Variance" to your single parcel meter service policy allowing us to continue servicing the 2 parcels as this meter has for almost 60 years. Given the history, long term usage, and the fact that these parcels would never be sold or transferred to anyone else, we are requesting this policy "Variance". These (2) parcels are integral to the Pinebrook recreational area with facilities spread across them (Parking lot, Basketball Court, Lawn area, Volleyball Court, Town Hall, Playground area, Picnic Grounds, Shade Structure, Lighting, and a Planned Amphitheater. I believe we have a special case that is not an exposure to the reasons you have this restriction policy limiting a meter to only serve a single parcel. There is no future downside that we are aware of in granting us a "Variance" for this meter at 2108 Flanders Dr that always has and currently serves the needs of (2) parcels.

. Here are the Engineering comments: Based on CCWD design standards, we design for a maximum day demand of 1,000-gpm at elevations above 3,000-ft that includes the Ebbetts Pass water system for a typical residential connection or 5/8" meter. This is backed up statistically that 70% of all residential customers in Ebbetts Pass are using less than 500-gals/day maximum day demand and 90% using less than 1,000-gals/day. At 25,000+ cubic feet per billing cycle in summer months, the Pinebrook HOA is using approximately 2,500 to 3,200 gal/day, which is 3 to 6 times what is normally being used by a typical residential customer, so overall, I don't see a reduction in their bi-monthly base rates is appropriate by eliminating low usage meters and diverting all the demand to one 5/8" meter. If termination of two meters is approved, I believe it would be necessary to convert the remaining meter to a 1" ultrasonic radio read meter. That would result in a 2.5 equivalents for that specific meter. Assuming all existing meters are 5/8" meters, then overall it would reduce their bill from 4 to 3.5 equivalents. Also, we would want backflow devices installed on both meters, it they don't already have existing backflow devices.

#### . Response and Questions to Issue 2:

- When the lawn was put in years ago it was plumbed (with a backflow device) into Meter (4) (M4) on parcel 2086 Flanders Dr as we were paying for an unused meter and were allowed 1,000 cu ft of water bi-monthly without usage charge. The current connection is on M3 of the 2108 Flanders Dr; parcel (often called the Town Hall lot). Therefore M4 is not used at all. When it was used it was providing water across two parcels (lawn area).
- Since the major water usage is for planting and lawn areas, there is not any kind of high flow demand as the water is controlled by a 7 station controller and valve system limiting the demand at any one time. The water usage is over a 4 month time frame with almost no water used the other 8 months of the year. Total water usage from 12/15/2018 through to 12/15/2019 was 40,598 cu ft or 832 gallons per day. Yes there was almost zero usage most months and heavy usage a few months.
- The actions to remove 2 meters does not change the demand on the ones remaining. One meter (M2) had no usage, a second meter (M1) is left alone across the road serving the lake area. The other two are combined on one meter (M3) with (M3) having low usage before (almost zero usage for 8 months of the year), returning the other meter (M4) to no usage as in past years.
- 70% of all cabins are for occasional usage according to EPPOC subdivision data so 30% would be full timers. So yes it would be expected that 70% use less than 500 gals/day. Now maybe the full timers are more in the 1,000 gal/day usage? Yes in the peak months Pinebrook on the (M3) usage is 2 to 3 times that average (not 3 to 6), but for the year we are at the 832 gal/day number which fits in the documented range above.
- Question, what is the issue? Is the 5/8" meter designed to not handle the volume over several decades. Is the <sup>3</sup>/<sub>4</sub>" or 1" meter have some other design?. The issue with the larger meter suggestion is the base cost of service plus the high flat charge of water usage rather than the tier charge approach. It seems like this is a policy decision to generate more CCWD income for high water usage connections (but cost is the same per gallon) and the monthly base cost is the same (how much more actual cost is a <sup>3</sup>/<sub>4</sub>" or 1" meter compared to a 5/8" meter?) We are installing some playground equipment & removing some lawn area, so the water usage will go down in the future.

#### Action Requested:

- . Have the Board grant a variance to the policy of one meter feeds one parcel given the Pinebrook history.
- . Allow the described water usage to flow through the M3 5/8" meter, which needs to be replaced anyway after 32 years of service? It is not recording usage but otherwise working fine (reported to CCWD end of last year with request to use previous year's usage charges until meter replaced been almost zero usage so far but spring and summer will come).

# 4. Meter (4) at 2086 Flanders Dr; shown as M4 at the top right side of map (next to M3). Status:

- . This meter currently serves nothing, for years had served the lawn area.
- . Identified as Meter ID R042690086 with Account # 007810-000

**Issue:** None knows – valid candidate for unused meter with no future plans so to be discontinued

#### Action to be Taken:

- . Terminate Meter and remove
- . \$300 check has been sent in with submission to remove the meter and service

#### SUMMARY

I hope the description of the services, situations, issues, and recommendation requests are clear. We realize that our historic usage and connections are not in accordance with current CCWD policy and engineering assessments. However, we are hoping that the Board, management and staff will consider our history and grant any needed policy variances so we can go forward with our mission to provide services to our homeowners. I don't think we would be setting any precedence or issues for CCWD by supporting our community here in Pinebrook.

Thanks for your support and consideration,

Dale Pilgeram Pinebrook HOA President Cell: 408 710-2148 Email: pilgeram@sbcglobal.net

## **RESOLUTION NO. 2020-**

## A RESOLUTION OF THE BOARD OF DIRECTORS OF THE CALAVERAS COUNTY WATER DISTRICT

# GRANTING A VARIANCE TO RULES AND REGULATIONS GOVERNING THE FURNISHING OF WATER AND/OR WASTEWATER SERVICE, ARTICLE IV, SECTION 35, DOMESTIC SERVICE INSIDE IMPROVEMENT DISTRICTS, TO THE PINEBROOK HOMEOWNERS ASSOCIATION

**WHEREAS**, the Board of Directors of the Calaveras County Water District (District) adopted the Rules and Regulations Governing the Furnishing of Water and/or Wastewater Services on December 7, 1954; and

**WHEREAS**, the Board of Directors amended the District's Rules and Regulations Governing the Furnishing of Water and/or Wastewater Services, Article IV, Section 35, Domestic Service Inside Improvement Districts, in Resolution 2006-10 on January 25, 2006; and

**WHEREAS**, the Pinebrook Homeowners Association requested a variance to CCWD's Rules and Regulations Governing the Furnishing of Water and/or Wastewater Service, Article IV, Section 35, to allow the water meter at 2108 Flanders Drive, Arnold, (APN 024-025-013), to be used to irrigate an adjacent parcel – 2086 Flanders Drive (APN 024-025-015) – in addition to the lot where the meter is physically located; and

**WHEREAS**, Pinebrook has used a water meter at 2108 Flanders Drive to irrigate adjacent parcels owned by the Pinebrook Homeowners Association for community gatherings and recreation since the 1960s, prior to the system being annexed by CCWD, and this practice was not stopped by CCWD when it annexed Pinebrook in 1988; and

**WHEREAS**, both parcels in question are owned by the Pinebrook Homeowners Association; and

**NOW, THEREFORE, BE IT RESOLVED** that the Board finds Pinebrook's variance request is consistent with the guidelines set out in CCWD's Variance Policy (Board Policy No. 22), in that it does not discriminate for or against any ratepayer, does not establish sub-standard facilities, puts water to reasonable and beneficial use, and achieves a fair result for the applicant; and

**NOW, THEREFORE, BE IT RESOLVED** that the Board of Directors of the CALAVERAS COUNTY WATER DISTRICT hereby approves a variance to Section 35 of Article IV of CCWD's Rules and Regulations Governing the Furnishing of Water and/or Wastewater Services for the use of a water meter owned by the Pinebrook Homeowners Association at 2108 Flanders Drive, Arnold, California, APN 024-025-013. The scope of the variance is limited to the parcels currently irrigated by the existing irrigation system – no expansion to additional parcels is allowed and may result in revocation of the variance; and

**THEREFORE, BE IT FURTHER RESOLVED** that this variance has been granted by the Board in response to unique circumstances, and this decision does not set a precedent for any future requests and Board action.

**PASSED AND ADOPTED** this 13<sup>th</sup> day of May 2020 by the following vote:

AYES: NOES: ABSTAIN: ABSENT:

# CALAVERAS COUNTY WATER DISTRICT

RE: Discussion Regarding District's New Operations Maintenance Facility Bid Results and Options Moving Forward

# **RECOMMENDED ACTION:**

None / Discussion Only

#### SUMMARY:

The Calaveras County Water District (CCWD) received bids on 4/17/2020 for the new operations and maintenance corporate yard. The bid was divided into three separate schedules: A) Site Work, Grading, Site Utilities, and Paving, B) Building Slab and Metal Building, and C) Interior Walls, Electrical, Plumbing, Lighting, and HVAC. The bid incorporated the desired features that were brought from engineering, operations, and management staff and recommendations from the Engineering Committee. The project was advertised in the local newspaper, plan rooms, Public Purchase website, and District websites and had a large amount of interest from prospective bidders and subcontractors. A tabulation with the results of the bid is attached. Roland Construction was the lowest overall bidder with an overall bid price of \$2.5 million.

After the bid opening, CCWD staff contacted Roland Construction on the project to see what opportunities exists to value engineer the project to reduce the cost. CCWD staff suggested items of work that could be eliminated or modified to reduce costs. The estimated value engineering cost savings provided by Roland Construction were not sufficient to meet our expectations. At this time, staff does not recommend awarding a contractor for any of the bid schedules.

This proposed project was designed to provide substantial benefits to the District now and in the future. Staff is committed to finding a way to create a viable project for the District that meets the cost expectations previously identified. Staff, along with input from the Engineering Committee, have identified cost saving measures for moving forward with the project when the time is right and the price is right, such as: 1) District soliciting bids from building manufactures to purchase a complete metal building package to secure lowest available pricing, 2) reducing the size of the building to fulfill current needs of the District with the ability to increase building size for future needs, 3) value engineering design elements to identify more economical, cost saving options, and 4) dividing construction/bids into phases that can be completed by individual trades thereby avoiding the need for Prime Contractor Supervision.

# PROPOSED PROJECT SEQUENCE AND SCHEDULE:

Based on input from the Engineering Committee and staff's concern regarding the current financial uncertainties that exist, this project will be delayed until Spring 2021 at the soonest. If, at that time, the Board directs staff to proceed with the project, a different approach will be taken to keep costs reasonable. The new approach will be finalized and presented to the Board for approval before proceeding with the project. The rough outline of the new approach includes:

PHASE 1: CCWD staff would draft a grading, paving, and foundation plan that maintains an overall footprint of approximately 1 acre or less. CCWD would solicit bids for grading, paving, and concrete work to complete this initial phase of the project. CCWD staff anticipates that this plan would be put out to bid in February of 2021 if financial circumstances permit and pending Board approval.

PHASE 2: CCWD would purchase an engineered metal building directly from the building manufacture. CCWD would solicit bids for the assembly of the metal building. The site utilities work such as water, sewer pumps, and electrical between the building and the service locations would be installed by CCWD crews or a local utility contractor depending on availability of crews. This work would be targeted for Spring of 2021.

PHASE 3: This phase of work would include interior electrical, plumbing, and other tenant improvements. The scope of work in this phase would depend on the availability of funds. This work would likely be completed in the 21/22 Fiscal Year.

# FINANCIAL CONSIDERATIONS:

None at this time. The FY 20/21 budget is still under development and a draft will be presented to the Finance Committee on May 19<sup>th</sup>. Staff proposes to include \$300,000 in the Capital Improvement Program with the understanding that only minimal in-house engineering work would be done until the District is able to re-assess the financial situation at mid-year budget review. If the project proceeds, the funding source for FY 20/21 would be limited to the Admin Replacement (Fund 104), which is dedicated for this purpose and would not impact the rest of the budget.

# **Agenda Item**

DATE: May 13, 2020
TO: Michael Minkler, General Manager
FROM: Damon Wyckoff, Director of Operations
RE: Report on the April 2020 Operations Department

#### **RECOMMENDED ACTION:**

Receive Report on the Operations Department Report for Divisions 1 through 5.

## SUMMARY:

Attached is the monthly Operations Department Report for April 2020. This report will review the operational status and work completed by departmental administration and each of the five Divisions. The report will cover the following:

- Administration
- Water treatment plants
- Wastewater treatment plants
- Distribution
- Collections
- Construction
- Electrical
- Mechanical

Staff will be present the report to the Board of Directors and will available for questions

# FINANCIAL CONSIDERATIONS:

None.

Attachment: April 2020 Operations Department Report for Division 1 through 5

# **Operations Department Report**

April 1st 2020 through April 30th 2020

#### **Director of Operations:**

- 1. Met with FEMA and Cal OES to transition from FEMA to Cal OES as the project manager of the Districts DR-4431 projects (Feb 2019 atmospheric river storm damages)
- 2. Worked with Mobile MMS and Field Staff to develop Flushing and Valve Exercising Work orders
- 3. Worked with Mobile MMS to secure an effective proposal for GIS services
- 4. Attended field meet with the CCWD GM, Field Staff, and Gold Creek 3 representatives to review the developments work efforts associated with the District's sewer force main from the Huckleberry Lift Station to the La Contenta WWTP
- 5. Worked with the District's Operations Manager to initiate the rehabilitation of the Hunters WTP filter rehabilitation project
- 6. Worked with the District Purchasing Agent to ensure the purchase of Personal Protective Equipment (PPE) and disinfectants for staff in relation to the Coronavirus Pandemic and COVID-19
- 7. On-going work associated with the Operations Department 20/21 FY Budget Requests
- On-going work with the California Cyanobacterial and Harmful Algal Bloom (CCHABS) Network to review potential options for addressing HAB issues within wastewater effluent storage ponds and water treatment plant intake structures
- 9. Multiple work efforts associated with coordinating field staff and work efforts relative to the Coronavirus Pandemic and COVID-19 illness. A continued focus on Staff and Ratepayer safety and continuity of water and wastewater service

#### Administrative Technician:

- 1. March Spray Reporting
- 2. Maintained Field Calendar
- 3. Monitoring Distribution of Line Locates for CMMS Accuracy
- 4. Facilitate with Employee Reimbursements & Certificate Renewals
- 5. Field Training Course Ordering/Registrations
- 6. Process Purchase Order Batches
- 7. Operations Shipping/ Returns
- 8. On Call Reminders, Transfers, Logs
- 9. Electronic Lab Report Filing
- 10. Organizing and Archiving Operations Department Documents
- 11. Safety Tailgate Tracking & Archiving
- 12. Attended Various Meetings
- 13. Continued Work Efforts of CERS Project
- 14. Prepping for 2020 Backflow Program
- 15. Target Solutions
- 16. COVID-19 Webinars
- 17. Miscellaneous Administrative Functions

# Plant Operations Manager:

- 1. Completed review of Monthly water reports and submitted them to the State
- 2. Completed review of Monthly wastewater reports and submitted them to the State
- 3. Worked to initiate the Hunters WTP Filter Rehabilitation
- 4. Worked with a Consultant to troubleshoot and remediate the filter operation at the Forest Meadows WWTP
- 5. Multiple site visits with a chemical vendor to review placement of Caustic Soda Tanks
- 6. Coordination of Treatment facility coverage to address illnesses and time-off requests
- 7. Onsite review of the Arnold WWTP forest thinning project
- 8. Worked with the Director of Operations on developing FY 20/21 Operations Budget Requests
- 9. Reviewed and accepted the White Pines Division of Safety of Dams (DSOD) Annual Report

## Purchasing Agent:

- 1. On-going time associated with Purchase Order entries in the District's Springbrook financial software
- 2. Delivered parts to multiple District sites and picked up PO's from field staff
- 3. Ordered material and PPE equipment to bolster the District's supply relative to COVID-19 protection
- 4. Obtained quotes and purchased a Barnes pump for Lift Station 14.
- 5. Met with Enterprise representatives to develop a FY 20/21 Plan to request lease-to-purchase vehicles
- 6. Delivered PPE and sanitation material (wipes, hand-sanitizer, etc.) to District Field Staff
- 7. Obtained quotes for Cla-Val Parts Purchased rebuild kits
- 8. Delivered Booster Pump to Arnold's Lift Station 3
- 9. Held Meeting with Samsara remote monitoring equipment for District facilities
- 10. Researched pricing and ordered a replacement blower for the West Point Lift Station
- 11. Ordered material for the Sheep Ranch flow meter replacement job
- 12. Worked with Construction to refine and update the cost-to-serve worksheets
- 13. Researched control valve applications in an effort to replace the old failing unit at the Wilseyville Pump Station
- 14. Researched and ordered replacement pumps for the Arnold WWTP Clarifier
- 15. Multiple meetings with various vendors to discuss material and equipment viability and availability

# Water Treatment Plants:

#### Copper Cove Water Treatment Plant:

- 1. Operations as usual
- 2. Annual Samples Taken
- 3. On-going routine work efforts conducted under COVID-19 protection directives issued locally and via State and Federal Government

#### Hunter's (Ebbett's Pass) Water Treatment Plant:

- 1. Operations as usual
- 2. Filter Rehabilitation began starting with Filter #2
- 3. On-going routine work efforts conducted under COVID-19 protection directives issued locally and via State and Federal Government

#### Jenny Lind Water Treatment Plant:

- 1. Operations as usual
- 2. Continued training of two new operators
- 3. On-going routine work efforts conducted under COVID-19 protection directives issued locally and via State and Federal Government

#### Sheep Ranch Water Treatment Plant:

- 1. Operations as usual
- 2. On-going work associated with the installation of a new flow meter to Rite of Passage Meter installed
- 3. Monthly inspection of the White Pines Dam Complete
- 4. On-going routine work efforts conducted under COVID-19 protection directives issued locally and via State and Federal Government

# Wallace Lake Estates Well System:

- 1. Operations as usual
- 2. On-going routine work efforts conducted under COVID-19 protection directives issued locally, via the State, and Federal Governments

# West Point Water Treatment Plant:

- 1. Operations as usual
- 2. On-going routine work efforts conducted under COVID-19 protection directives issued locally, via the State, and Federal Governments

# Wastewater Treatment Plants:

#### Arnold Wastewater Treatment Plant:

- 1. Operations as usual
- 2. Drained the clarifier to allow the Mechanical Department the opportunity to make detailed measurements to rehabilitate the Clarifier

#### Copper Cove Wastewater Treatment Plant:

1. Routine operations as required by permit.

#### **Copper Cove Wastewater Reclamation Plant:**

- 1. Plant idle
- 2. Annual UV maintenance complete
- 3. Annual maintenance on chemical metering pumps and analyzers complete

#### Country House Wastewater Facility:

1. Operations as usual

#### Forest Meadows Wastewater Treatment Plant:

1. Operations as usual

#### Indian Rock Vineyards Wastewater Facility:

1. Operations as Usual - Weekly inspection of facility. Switched leach fields, tested pumps, changed chart, weekly reads for state compliance

#### La Contenta Wastewater Treatment Plant:

- 1. Operations as usual
- 2. On-going routine work efforts conducted under COVID-19 protection directives issued locally and via State and Federal Government

#### Mountain Retreat / Sequoia Woods Wastewater Facility:

1. Operations as usual

#### Six Mile Wastewater Collection System:

1. Monthly reads taken and report submitted to the City of Angels Camp

#### Southworth Wastewater Treatment Plant:

1. Operations as usual

#### Vallecito / Douglas Flat Wastewater Treatment Plant:

- 1. Operations as usual
- 2. Construction Crew began forming for a concrete slab in front of the reclaim pump station
- 3. On-going routine work efforts conducted under COVID-19 protection directives issued locally and via State and Federal Government

#### West Point Wastewater Treatment Plant:

1. Operations as usual

#### Wilseyville Wastewater Facility:

1. Operations as usual

# **Distribution:**

#### **Copperopolis Distribution System:**

- SERVICE LINE WORK
- 1. Bow 2" 4 gpm
- 2. Bow 2" 7 gpm
- 3. Raccoon Hollow 1 " 1 gpm
- 4. Arrowhead 1" 3 gpm
- 5. Mohawk ct 1" 1 gpm
- MAIN LINE WORK 1. Mineral 4" 12 gpm Additional Work
- 1. USA's
- 2. Flushed 105,632 gals.
- 3. PRV Maintenance
- 4. 132 values turned
- 5. meter replacements
- 6. Cleaned the Shop
- 7. Many of the work efforts described were completed under Local, State, and Federal guidelines relative to COVID-19

#### **Ebbett's Pass Distribution System:**

- SERVICE LINE WORK
- 1. None at this time MAIN LINE WORK
- 1. Reach 1 Steel leak at joint Additional Work
- 1. Customer Service Work Orders
- 2. USA Line Locates
- 3. Many EP related construction meetings Reach 1, Techite
- 4. On-Going training associated with new Distribution Staff
- Many of the work efforts described were completed under Local, State, and Federal guidelines relative to COVID-19

#### Jenny Lind Distribution System:

#### SERVICE LINE WORK

- 1. McAtee, 1: x 3" wraparound, .5 gpm
- 2. Blue Heron Ct, 1" x 6" wraparound, 2 gpm
- Hartvickson, Leak at ¾" flare at tee, cut our ¾" from tee to meter and replace with 1" and replace curb stop. 5 gpm
- 4. Hedgepeth, 1" x 6" wraparound, 1 gpm
- 5. Baldwin, 1" x 6" wraparound, 1.5 gpm
- 6. Baldwin, replaced <sup>3</sup>/<sub>4</sub>" curb stop and 1 foot of <sup>3</sup>/<sub>4</sub>" service line, .5 gpm
- 7. Garner, 1"x 3" wraparound, 1 gpm
- 8. Sparrowk, Replaced tee between meters, .5 gpm
- 9. Kirby, 1" x 3" wraparound, 5 gpm
- 10. Westhill, Hand dig, 3/4" x 3" wraparound, .5 gpm
- 11. Mitchell, 1" x 6" wraparound, 3 gpm, After Hours call out
- 12. Kirby, Re-flare 1" at the main and cut out and replace 2-foot section of 1" service line, had to shut down main, 7 gpm, Flushed after
- 13. Rippon 1" x 3" wraparound, 1 gpm, Service line runs under customer retaining wall.
- 14. Rippon, 1" x 3" wraparound, 1 gpm, this leak was causing the water across driveway at 5711 Rippon.
- 15. Baldwin, 1" x 3" wraparound, 1 gpm, Full traffic control
- 16. McAtee, 1" x 3" wraparound, .5 gpm
- 17. Dunn, 1" x 3" wraparound, 1 gpm, Leak had pushed up asphalt and we had to cut out a 5' x 5' section and replace 7" of saturated soil with road base and compact.

- 18. Baldwin, cut out and replaced 2-foot section of 1" service line, after hours call out, Leak was shooting about 8 feet in the air.
- 19. Baldwin, 1" x 3" wraparound, .5 gpm
- 20. McAtee, 1" x 3" wraparound, 1 gpm, traffic control
- Pardini, 2 Leaks, 1- 1" x 3" wraparound and 1- 1" x 6" wraparound, Line was smashed against kicker for hydrant, 3 gpm, Traffic control MAIN LINE WORK
- 1. None at this time
  - ADDITIONAL WORK
- 1. Flushed 10,825 gallons flushed the end of Kirby after a service line repair (2,350 gal), and flushed the lower end of the Jenny Lind service area (8,475 gal).
- 2. 21 Service Requests for the JL area
- 3. 45 USA line locates for JL area
- 4. 1-meter replacement
- 5. Checked on T&S trenches on Gabor on a regular basis
- 6. Cut and cleared brush outside gate at LC warehouse
- 7. Checked Distribution system in Wallace
- 8. Went through approved materials list and sent in suggestions for updates
- 9. Flushed Mother Lode Acres
- 10. Replumbed overflow at D tank to front tank and drain and refill front tank (per state)
- 11. Cut brush and trimmed bushes at D tank
- 12. Install hydrant meters
- 13. Check and verify valves between Hwy 26 and Berkesey are open
- 14. Check on Driver Ct, put down cold patch and clean up old spoils pile that was left
- 15. Went over maps to count services for possible service line project based on County paving schedule
- 16. Filled out many County right of way forms before performing leak repair
- 17. Met with Bob from Gold Creek Homes about ARV
- 18. Weekly Tank and pump station checks
- 19. 2 Cost to Serve estimates
- 20. Pass out door tags for T&S shutdowns on Gabor
- 21. Restores
- 22. Touch up cold patch spots
- 23. Pick up old spoils piles as we come across them
- 24. PB went up to Pass to assist with mainline leak repair

#### West Point Distribution System:

#### SERVICE LINE WORK

- 1. Lambert Road 5 gpm MAIN LINE WORK
- 1. No work at this time
- ADDITIONAL WORK
- 1. USA Line locates
- 2. Service Requests ranging from Read/Leave Ons, Restores, Pressure issues, Re-reads.
- 3. Assisted Facilities Maintenance Technician with the installation of conduit at the Bummerville Rerservoir

# **Collections:**

- 1. No spill report through CIWQS
- 2. Vehicle Inspections
- 3. Safety Tailgate meetings
- 4. No spill CIWQS report
- 5. Inventoried sewer supplies at Vallecito storage container and sent to the District's Purchasing Agent.
- 6. Weekly lift station checks district wide
- 7. Line locates district wide
- 8. Smoke test unit 7 in Copperopolis
- 9. Started repairs based on results from smoke testing

- 10. Created APN list of easement access issues for Unit 7 in Copperopolis and emailed to Joel for distribution of notification
- 11. Field meet for force main realignment of Huckleberry force main as part of Gold Creek phase 3 development
- 12. Worked on check valves at lift station 22 in Copperopolis. Repair kits on order
- 13. Checked all force main ARV's district wide and serviced as needed
- 14. Assisted La Contenta distribution crew with water leak on Kirby
- 15. Pumped backwash return pond at JLWTP
- 16. Pumped vault and cleaned bio tubes and pump intakes at Wallace WWTP
- 17. Removed bad pump and installed new in sand filter beds at Southworth WWTP
- 18. Called out to sewer backup at 100 Robin Wood place in Woodgate. Problem was on our side. Repair is pending determined upon best option
- 19. Responded to a manhole problem due to a traffic accident at Vista Del Lago. Repairs will be made week of May 4 8
- 20. Called out to septic tank alarm at 9060 Southworth Rd. Installed new pump
- 21. Installed new control panel, new floats, new splice box and checked all wiring on a reoccurring problem septic tank at 7001 Elizabeth Ct.
- 22. Called out to septic tank alarm at 4899 Hwy. 4. Plumbing on top of pump had broken and tank was recirculating and not draining. Fixed plumbing. Follow up will be need to replace some very old floats that aren't working well
- 23. Called to septic tank at 7005 Ospital Rd. in Southworth. Wire on float that controls the pump had pulled out and the pump had stopped working.
- 24. Installed new pump at lift station 14 in Copperopolis
- 25. Responded to VFD fault and pump fail problem at Huckleberry lift station
- 26. Responded to low level alarm at lift station 12 in Copperopolis. Pumps lost prime and stopped pumping. Got pumps to work again. Determined to be a low-level float failure caused this. Replaced float
- 27. Pulled pump at Saddle Creek lift station 2 in Copperopolis that continually was kicking the electrical breaker and drove it to MarTech for electrical repair
- 28. Responded to lift station high level alarm at Mtn. Retreat lift station. High level float had come loose and dropped down to the bottom of the well
- 29. Pulled and cleaned foot valves and incoming filter basket at West Point lift station. Repaired some minor leaks in the plumbing on pumps
- 30. Cost to serve for 2 septic tank terminations in West Point
- 31. Pumped and cleaned wet wells at Huckleberry, Hwy. 26, Wood Gate 1 and Wood Gate 2 lift stations in La Contenta

# **Construction:**

- 1. Assisted the Copper Cove Distribution Crew with service line leak repairs
- 2. Assisted the Ebbett's Pass Distribution Crew with service line leak repairs
- 3. Assisted the La Contenta Distribution Crew with service line leak repairs
- 4. Assisted the Collections Crew in the pulling of pumps at Lift Station 3 in Arnold
- 5. Excavated test holes at the Arnold Wastewater Treatment Plant to better understand the soil composition
- 6. Poured Caustic Soda Storage Tank Pad at the Huckleberry Lift Station in La Contenta
- 7. Poured Caustic Soda Storage Tank Pad at the Connor's Main Lift Station in Copperopolis
- 8. Continued site clean-up at the Bummerville Reservoir Site
- 9. Continued the repair of the Road to the Indian Rock WWTP FEMA funded project
- 10. Worked with Ebbetts Pass Distribution and the Electrical Department to replace the flow meter to Right of Passage at the Sheep Ranch Raw Water Pump Station
- 11. Many of the work efforts described were completed under Local, State, and Federal guidelines relative to COVID-19

#### **Electrical:**

- 1. Repaired broken conduit/wires AWWTP spray valve
- 2. Troubleshot and repaired failed to acquire standby power fault at Copper Cove Raw Water Pump Station

- 3. Troubleshot level problem on the HMI at Copper Cove Sewer Lift Station 11, made parts list to repair
- 4. Replaced 0-5 psi level transducer in wetwell at FMWWTP
- 5. Researched belt press shutdown fix at FMWWTP
- 6. Built new CPU, backplane and option adapter for Copper Cove Sewer Lift Station #11, flashed with 984 ladder logic firmware and uploaded control program
- 7. Installed new PLC at Copper Cove Sewer Lift Station #11, tested, full function of HMI and lift station pump controls have been restored
- 8. Troubleshot/repaired Big Trees 4&5 voice radio repeater
- 9. Replaced 2 failed hour meters at Dorrington Pump Station
- 10. Replaced failed switch for generator area light at Hunters effluent building
- 11. Troubleshot/repaired remote SCADA access at WPWTP
- 12. Troubleshot odor blower at WPWTP, determined the unit was failed, sent photos of nameplates to the purchasing agent to order new
- 13. Completed various training courses online via Target Solutions
- 14. Replaced failed SCADA monitor after lightning strike at FMWWTP
- 15. Troubleshot bad pump motor at Copper Cove Sewer Lift Station #14 after hours
- 16. Replaced failed 750 UPS at FMWWTP after lightning strike
- 17. Designed new automatic start/battery charger control panel for the generator at Big Trees 2 site
- 18. Replaced failed UPS at AWWTP
- 19. Repaired failed remote SCADA access again at WPWTP, after extensive troubleshooting found loose wire, tightened all associated connections
- 20. Rewired new pump at Copper Cove Sewer Lift Station #14 after replacement
- 21. Replaced complete control system for septic tank at 7001 Elizabeth Court in Valley Springs restoring proper function
- 22. Troubleshot sand filter pump at Southworth WWTP, determined pump was failed, unhooked it electrically after lock out/tag out, awaiting replacement pump
- 23. Replaced failed GFI for Chlorine pump at JLWTP
- 24. Wired/set up new Mag Meter Spool at Sheep Ranch Pump Station, restoring proper function of flow meter
- 25. Wired/set up new chemical pump at JLWTP
- 26. Wired up new blower for Ozone destruct #1 unit at JLWTP
- 27. Troubleshot problem with transfer switch at Mountain Retreat Sewer Lift Station
- 28. Troubleshot/repaired pressure level transducer for Hunters WTP clearwell
- 29. Troubleshot/repaired Sump pump #1 at Wallace WWTP problem was sludge
- 30. Reattached flow meter transducers for sump line at Wallace WTP restoring proper function
- 31. Calibrated red lion display 4-20ma loop at Jenny Lind B-Tank restoring proper local level display
- 32. Replaced failed timing relay for a Copper Cove Headworks aerator restoring proper function of unit
- 33. Integrated new interlock and e-stop for sludge pump at FMWWTP belt press
- 34. Wired up newer blower motor for Ozone Destruct Unit #2 at JLWTP
- 35. Adjusted program in new VFD at Huckleberry Sewer Lift Station to auto restart after fault per our standard
- 36. Unwired Pump #1 at Saddle Creek Sewer Lift Station #2, so collections crew can send it out to get rebuilt
- 37. Disconnected electrical from filter at Hunters WTP for filter rehab project
- Troubleshot flow meter at Meadowmont Pump Station, meter reading way to high, determined meter is failed
- 39. Completed electrical as-built binder for the new Vallecito recycled water pump building
- 40. Replaced failed lamps at the main office as well as failed switch in HR office
- 41. Troubleshot solenoid valve at Jenny Lind pretreatment system, problem not electrical
- 42. Walked operator through a fix over the phone for a VFD fault at Wallace WTP Well #3
- 43. Troubleshot/reprogrammed failed flow meter at Southworth WWTP restoring proper function of meter
- 44. Troubleshot/ordered parts to repair indoor lighting at Vallecito Sewer Lift Station
- 45. Preformed electrical locates in Calypso Bay Copperopolis
- 46. Troubleshot/repaired Copper Cove Sewer Lift Station #12, replaced bad float restoring proper control system function of lift station
- 47. Preformed an electrical inspection for all 3 blowers at AWWTP per operator
- 48. Configured remote SCADA access to work with new high-speed internet at LCWWTP
- 49. Designed solar backup system for telemetry panel at 602 Tank
- 50. Replaced/relocated new 4' LED lighting fixtures away from generator muffler at the Mokelumne River Pump Station in West Point
- 51. Troubleshot/ordered parts to repair interior lighting at Meadowmont Pump Station in Arnold

52. Replaced failed odor blower and motor at West Point Sewer Lift Station

# Mechanical:

- 1. Re-built Cla-val at the Wilseyville Pump Station. Worked with the District's Purchasing Agent to order a replacement valve.
- 2. Dismantled the Clarifier Shaft Components at the Arnold WWTP and developed a blue print for a machinist to upgrade the shaft and components
- 3. Installed new backup generator at the Big Trees #2 Tank site
- 4. Replaced the Ozone Destruct Blower #2 at the Jenny Lind WTP
- 5. Transported waste oil to Rock Creek Landfill
- 6. Replaced the Backwash Blower Valve at the Hunters WTP
- 7. District-wide generator inspections and re-fueling efforts
- 8. Serviced the Generator at the Dorrington Pump Station, Big Trees 4&5, Mtn Retreat Lift Station, Sawmill PS, Big Trees Tank #1 site
- 9. Troubleshot the Standby Generator at the West Point WTP. PG&E issue
- 10. Serviced Truck #592 & replaced tires
- 11. Removed and replaced blend-door actuator on Veh. #126 VacCon
- 12. Repaired broken tires and trailer plug for trailer #T04
- 13. Removed and replaced beacon light on truck #716 (Ford F-150)
- 14. Installed work lights and fuel tank on new Service Truck
- 15. Many of the work efforts described were completed under Local, State, and Federal guidelines relative to COVID-19
