Director Davidson commented that he was disappointed about the Calaveras Counties response to Cosgrove Creek flooding. He stated there should be a warning system for flood events to help prevent the amount of flood damage that Valley Springs had sustained during these storms. He also recommended field staff remove the debris from the infrastructure under the bridges in Valley Springs. Mr. Wyckoff stated that the team in Valley Springs has already done so a few times. <u>DISCUSSION</u>: Jeffrey Meyer stated the Federal funding authorization of \$13.28 million for Copper Cove Wastewater Treatment Systems Improvements Project requires a local cost share match of twenty five percent. The total estimated project cost for the Pond 6 and Tertiary Treatment Improvements is \$21 million. The District's cost-share match of \$7.62 million will include funds from the Sewer Capital Renovation and Replacement Fund and the Copper Cove Sewer Expansion Fund. The District may also seek funding from the State of California. The USACE application requires the Board to designate an authorized agent to sign and execute Self-Certification of Financial Capability Letter. Mr. Minkler added that this is standard protocol with Federal funding. There was discussion regarding other funding options for the District's cost share. Director Ratterman reminded everyone that the Legal Affairs Committee and Mia O'Connell were integral in getting the \$13.28 million dollars in funding.

SUBJECT: Discussion/Action regarding the Districts Position to Oppose Ballot Initiative

21-0042A1

RECOMMENDED ACTION:

Motion:	/ to approve Resolution 2023	Opposing Ballot Initiative 21-
0042A1:	Taxpayer Protection & Government Accountability	/ Act

SUMMARY:

The Legal Affairs Committee met on January 31, 2023, and recommends the Board does the following:

Taxpayer Protection & Government Accountability Act | Ballot Initiative 21-0042A1

The purported "Taxpayer Protection and Government Accountability Act," a statewide initiative measure to amend the California Constitution sponsored by the California Business Roundtable ("CBRT"), is the most consequential proposal to limit the ability of the state and local governments to enact, modify, or expand taxes, assessments, fees, and property-related charges since the passage of Proposition 218 (1996) and Proposition 26 (2010). If enacted, public agencies would face a drastic rise in litigation that could severely restrict their ability to meet essential services and infrastructure needs. Ballot Initiative 21-0042A1 includes the following:

- Change of Proposition 218 Fees: redefined to be the minimum amount necessary to provide services. Potentially preventing the ability to save for the future, including reserves and planned projects scheduled for implementation in the next 3-5 years.
- 2. Must provide clear and convincing evidence for the need of services, with a higher legal threshold.
- 3. Fees must be "reasonable" to the ratepayers. The term is currently undefined.

CSDA is asking all Special Districts to take an OPPOSE stance on this ballot initiative. In addition, CCWD's Legal Affairs Committee is recommending the board approves Resolution 2023- opposing BI 21-0042A1.

FINANCIAL CONSIDERATIONS:

None at this time.

STRATEGIC PLANNING OBJECTIVES:

PP-02: Engage and facilitate partnerships to best utilize the District's assets and promote the District's legislative positions.

PP-05: Closely monitor and engage in any relevant policy developments that affect the District.

RESOLUTION NO. 2023-

A RESOLUTION OF THE BOARD OF DIRECTORS OF THE CALAVERAS COUNTY WATER DISTRICT

OPPOSING CALIFORNIA BALLOT INITIATIVE 21-0042A1

WHEREAS, an association representing California's wealthiest corporations and developers is spending millions to push a deceptive proposition aimed for the November 2024 statewide ballot; and

WHEREAS, the proposed proposition, Initiative 21-0042A1, has received the official title: "LIMITS ABILITY OF VOTERS AND STATE AND LOCAL GOVERNMENTS TO RAISE REVENUES FOR GOVERNMENT SERVICES. INITIATIVE CONSTITUTIONAL AMENDMENT."

WHEREAS, the measure includes provisions that would make it more difficult for local voters to pass measures needed to fund local services and infrastructure, and would limit voter input by prohibiting local advisory measures where voters provide direction on how they want their local tax dollars spent; and

WHEREAS, the measure exposes taxpayers to a new wave of costly litigation, limits the discretion and flexibility of locally elected boards to respond to the needs of their communities, and injects uncertainty into the financing and sustainability of critical infrastructure; and

WHEREAS, the measure severely restricts state and local officials' ability to protect our environment, public health and safety, and our neighborhoods against corporations and others who violate the law; and

WHEREAS, the measure creates new constitutional loopholes that would allow corporations to pay less than their fair share for the impacts they impose on our communities, including local infrastructure, our environment, water quality, air quality, and natural resources; and

WHEREAS, the measure threatens billions of dollars currently dedicated to state and local services, and could force cuts to water and wastewater services provided by Calaveras County Water District as well as public schools, fire and emergency response, law enforcement, public health, parks, libraries, affordable housing, services to address homelessness, mental health services, and more; and

WHEREAS, the measure would also reduce funding for critical infrastructure like streets and roads, public transportation, ports, drinking water, sanitation, utilities, and more.

THEREFORE, **BE IT RESOLVED** that the CALAVERAS COUNTY WATER DISTRICT opposes Initiative 21-0042A1;

BE IT FURTHER RESOLVED, that the Calaveras County Water District will join the No on Initiative 21-0042A1 coalition, a growing coalition of public safety, labor, local government, infrastructure advocates, and other organizations throughout the state.

TAXPAYER PROTECTION & GOVERNMENT ACCOUNTABILITY ACT

BALLOT INIATIVE #21-0042A1: INCLUDED ON THE BALLET FOR NOV 2024

SUMMARY.

The purported "Taxpayer Protection and Government Accountability Act," a statewide initiative measure to amend the California Constitution sponsored by the California Business Roundtable ("CBRT"), is the most consequential proposal to limit the ability of the state and local governments to enact, modify, or expand taxes, assessments, fees, and property-related charges since the passage of Proposition 218 (1996) and Proposition 26 (2010). If enacted, public agencies would face a drastic rise in litigation that could severely restrict their ability to meet essential services and infrastructure needs. Ballot Initiative 21-0042A1 would result in the following for Special Districts:

- Change of Proposition 218 Fees: Redefined to be the minimum amount necessary to provide services. Potentially preventing the ability to save for the future including:
 - Reserves
 - Projects implemented in 3-5 years.
- Clear and convincing evidence for the need of services, with a higher legal threshold.
- Fees must be "reasonable" to the ratepayers. The term is currently undefined.

POTENTIAL IMPACTS

CCWD would have to conduct a rate study every year and boards would adopt rates every year.

Restricting local services and infrastructure to the lowest and minimum amount possible will disproportionately impact the most underserved communities the hardest.

Prevents critical investments in climate adaptation and community resilience to address drought, flooding, and wildfire as well as reduce emissions and harmful pollutants.

SUBJECT: Discussion/Action regarding Consideration of taking a Position on

Legislative Bill AB 338

RECOMMENDED ACTION:

Motion: ______ by Minute Entry to take an "OPPOSE" position on AB 338 (Aguilar-Curry): Prevailing Wage for Fuels Management

SUMMARY:

The Legal Affairs Committee met on January 31, 2023, and recommends the Board takes the following position on the listed legislative bill:

Public Works: Definition | AB 338 (Agular-Curry)

Assembly Bill 1717 was bill was drafted and approved by the State Legislature in 2022. This bill would have changed the definition of public works to include fuels treatment projects, and thus require payment of prevailing wage. Numerous water agencies, including CCWD joined together to oppose AB 1717, which Governor Newsom opposed in Fall, 2022. In January 2023, AB 1717's author reintroduced the bill as AB 338.

The District is prioritizing projects and is actively engaged in partnership coordination to continue the development of robust forest resilience and watershed health planning and project implementation. Unfortunately, AB 338 would raise the costs of imperative forest health and wildfire mitigation projects needed to protect the District's infrastructure, improve watershed health, and protect the surrounding communities. In addition, multiple planned wildfire mitigation projects are located in disadvantaged communities that have the potential to be faced with catastrophic wildfires. These same communities depend on maximizing public funding to prioritize wildfire mitigation.

Like AB 1717, AB 338 would likely result in serious adverse impacts on the District's ability to fund wildfire mitigation projects. The Legal Affairs Committee recommends the Board adopt an OPPOSE position on AB 338.

FINANCIAL CONSIDERATIONS:

None at this time.

STRATEGIC PLANNING OBJECTIVES:

PP-02: Engage and facilitate partnerships to best utilize the District's assets and promote the District's legislative positions.

PP-05: Closely monitor and engage in any relevant policy developments that affect the District.

PREVAILING WAGE FOR FUELS MANAGEMENT

AB 1717 (AGUILAR-CURRY (D))
VETOED BY GOV NEWSOM (FALL, 2022)

REINTRODUCED AS: AB 338

Existing law requires that, except as specified, not less than the general prevailing rate of per diem wages, determined by the Director of Industrial Relations, be paid to workers employed on public works projects. Existing law defines the term "public works" for purposes of requirements regarding the payment of prevailing wages to include construction, alteration, demolition, installation, or repair work done under contract and paid for using public funds, except as specified.

This bill would expand the definition of "public works" to include fuel reduction work paid for in whole or in part out of public funds performed as part of a fire mitigation project, as specified. By expanding the scope of a crime, the bill would impose a statemandated local program.

SUBJECT: Discussion/Action Declaring the Listed Items as Surplus and Authorize

Their Disposal Per the Surplus Policy

RECOMMENDED ACTION:

Motion	/	adopting	Resolution	No.	2023		authorizing	the
items listed as	s surplus and appro	ve disposa	al per the Pu	ircha	sing P	olicy		

SUMMARY:

As per Section 5.09.00 - *Stewardship of Public Assets*, of the District's Surplus Equipment Policy (Financial Management Policy 5.09):

Assets purchased with tax or ratepayer money must be conserved and properly accounted for during their useful life. The proper disposal of items no longer useful to Calaveras County Water District is part of the District's responsibility to preserve the public trust.

The District's vehicles and equipment are managed and maintained by the Utilities Department. In addition to performing regular maintenance, District mechanics routinely evaluate and assess the condition of the equipment and vehicles. One factor in determining the useful life of a vehicle is mileage. As per Section 1 of the Vehicle and Equipment Replacement and Purchasing Policy, "vehicles are eligible to be replaced after 120,000 miles."

Mileage is not the only factor used to assess the useful life of a vehicle. Staff also monitors vehicle and equipment maintenance requirements. If maintenance or repair costs become excessive the vehicle or piece of equipment may be removed from daily use. If said vehicle is still capable of being used in a "limited" capacity, then it can be reassigned as a pool vehicle. Among other uses, pool vehicles are available for use by employees when their primary vehicle is being serviced or repaired. If the vehicle is unsuitable for use as a pool vehicle, then it is designated for surplus. This is also true for equipment, dump trailers and equipment trailers.

The following list of vehicles and equipment either exceed the District's mileage replacement guidelines or have varying degrees of maintenance requirements, all at substantial cost, and need to be declared "surplus."

Mechanical:

- 1. Repaired fuel leak on Avery Tank Generator. Fuel return block had a bad seal that hardened up and started leaking from age, R&I new seal.
- 2. Generator for CC Warehouse would not start. Upon initial inspection found trickle charger had failed and generator was out of fuel and cranked until batteries were dead. Topped off fuel, charged up battery, and blead air from fuel system. Got generator running and tested the operation from the transfer switch.
- 3. Copper L/S 20 generator was alarming out, find battery voltage low. Jump started the generator and discovered the alternator is not charging the battery. Called Pape Machinery and ordered a replacement. Installed and tested the operation.
- 4. Installed a new backwash return gate valve at West Point WTP, Old valve was no longer adjustable causing backwash return rate to not be set correctly.
- 5. Install Samsara GPS for trial run on V747, V754 and Boom truck.
- 6. Called in for Larkspur pump #2 called to run but would not start. Arrived on site and found breaker for motor was tripped, reset breaker and try running pump in hand. Motor blew up, tripping the main breaker causing generator to start. Have electricians unwire motor and pull motor with chain hoist because the building does not have a hatch that allows access to pump and motor with crane.
- 7. Install spare motor for Copper B tank pump #2, Craig arrived at site with me to unwire old and rewire replacement motor. Adjust bowl height and test rotation. Check flow and put pump 2 back online.
- 8. Drive B tank motor and Larkspur motor to Industrial Electric for repairs.
- 9. Meadowmont PS took pump #3 offline and put pump #2 in the lag position. Checked cla-val speed control settings. Electricians unwired pump #3 motor and we began the disassembly of the plumbing and drive shafts to pull the motor off the pump and then pull the pump out of the building. Kevin's Crane Company showed up and we assisted digging the snow away from where the outrigger pads needed to be. With one man on the roof holding the hatch open we were able to call Kevin on the phone do guide the crane into the building. We lifted the motor off the pump and were able to set it to the side in the building to keep it out of the weather. We then lifted the pump out of the building and set it in an area where we could come back and lift it onto a trailer to keep Kevin's time at a minimum. The following day We pulled our flat deck trailer up there and loaded the pump onto the trailer and strapped it down. On 1-30-23 Cameron drove the pump down to Trillium pumps to begin the rebuild.

- 10. Jenny Lind WTP sludge rake had sheered the roll pin that allows the winch system to pull the rake across the bottom of the pond. Ops had spare shear pin stock at the plant, and we installed it so sludge rake was functional again.
- 11.V722 pressure washer would not ramp up RPM's when the trigger was pulled resulting in low flow and pressure. Upon troubleshooting it was confirmed that the motor was functioning properly but the throttle actuator on the pump side of the motor was not working. Replacement parts were ordered, installed and tested.
- 12. Arnold WWTP Effluent pump swing check replacement (co-op with Construction Crew) After new swing checks and HYMAX's were installed, I fabricated a restraint system to eliminate future movement of the pipe when the ground is saturated with water.
- 13. Work on adding assets on MMS and adding the assets to the map. Start adding components to the assets (such as mechanical seal part numbers to WPWTP effluent pumps)
- 14. Extensive work related to addressing storm related issues as they cropped up. Multiple hours associated with generator checks and refueling and equipment/system troubleshooting.
